Management's Discussion and Analysis of Financial Condition and Results of Operations

(dollars in thousands, except as noted)

The following commentary is a discussion and analysis of the financial position and the results of operations of the Farm Credit Bank of Texas (the Bank) for the three and six months ended June 30, 2026. The commentary should be read in conjunction with the accompanying financial statements, notes to the financial statements (notes), additional sections of this report and the 2025 Annual Report to shareholders. The accompanying financial statements were prepared under the oversight of the Bank's audit committee.

The Bank is a member of the Farm Credit System (System), a nationwide network of cooperatively owned financial institutions established by and subject to the provisions of the Farm Credit Act of 1971, as amended, and the regulations of the Farm Credit Administration (FCA) promulgated thereunder.

The United States (U.S.) is currently served by three Farm Credit Banks (FCBs) and one Agricultural Credit Bank (ACB). Each of the FCBs has specific authority to fund affiliated associations and other financing institutions (OFIs) which make loans to agricultural producers, farm-related businesses and rural homeowners within a regional chartered territory (or district). The ACB has the same lending authority as the FCBs within its chartered territory and has additional authority to finance agricultural cooperatives and rural utilities nationwide. The FCBs and the ACB are collectively referred to as "System banks." The primary purpose of the System banks is to serve as a source of funding for System associations within their respective districts. The System associations make loans to or for the benefit of borrowers for qualified purposes. At June 30, 2026, the Bank provided financing to 12 associations within its chartered territory (District Associations) and certain OFIs.

The accompanying financial statements relate solely to the Bank and exclude financial information of the District Associations. The Bank and the District Associations are collectively referred to as the Texas District. The Bank separately publishes certain unaudited combined financial information of the Texas District, including the Combined Balance Sheets and Combined Statements of Income, which can be found on the Bank's website at www.farmcreditbank.com.

CONDITIONS IN THE TEXAS DISTRICT

The Bank continues to fulfill its mission to support agriculture and rural communities by providing access to reliable and consistent credit. Persistent operating environment dynamics continue to present challenges. Driving factors such as geopolitical risk, commodity price volatility, elevated input and debt costs, and evolving trade policies are impacting performance across multiple sectors. Despite these challenges, overall credit quality at the Bank remains stable.

After three consecutive 25 basis point cuts in the target federal funds rate in 2025, the Federal Open Market Committee (FOMC) has held the target federal funds range constant at the 3.50-3.75 percent range since December 2025. In its most recent meeting on June 16-17, 2026, the FOMC considered it necessary to maintain the target rate constant in support of the Federal Reserve's dual mandate (i.e., maximum employment and price stability). The FOMC stated that economic activity is expanding at a solid pace despite elevated uncertainty, in part due to the conflict in the Middle East. Inflation remains elevated relative to the FOMC's 2 percent goal. The percentage change in the Consumer Price Index (inflation) for All Urban Consumers increased by 3.5 percent in June 2026, down month-over-month (MOM) from an increase of 4.2 percent in May 2026. Inflation increased

year-over-year (YOY) from 2.7 percent in June 2025 to 3.5 percent in June 2026. The energy index was the largest contributor to the monthly decrease.

The Bureau of Labor Statistics reported that the U.S. unemployment rate ticked down MOM to 4.2 percent in June 2026 but was marginally up from 4.1 percent in the year-ago period. State unemployment rates in the Texas District ranged from a low of 3.2 percent in Alabama to a high of 4.8 percent in New Mexico in June 2026. The Texas unemployment rate increased slightly MOM from 4.3 percent in May 2026 to 4.4 percent in June 2026. Similarly, the unemployment rate in Texas increased YOY from 4.1 percent in June 2025 to 4.4 percent in June 2026. Overall, the unemployment rates in the Texas District remain relatively stable. The unemployment rates in Alabama (3.2 percent) and Mississippi (3.8 percent) are below the national average with data as of June 2026.

On June 25, 2026, the U.S. Bureau of Economic Analysis (BEA) released its third estimate of real gross domestic product (GDP) for the first quarter of 2026. U.S. real GDP increased at an annual rate of 2.1 percent, up from 0.5 percent in the prior quarter and from -0.6 percent in the year ago period. The contributors to the increase in real GDP in the first quarter were increases in investment, exports, government spending, and consumer spending. Imports, which are a subtraction in the calculation of GDP, increased. Within the Texas District, annualized real GDP also increased YOY in every state of the Texas District as of the first quarter of 2026. Overall, real GDP growth rates ranged from an increase of 0.9 percent in Texas to an increase of 3.1 percent in New Mexico.

In terms of relevant Texas District commodities, the Energy Information Administration (EIA) indicated in its July 2026 edition of the Short-Term Energy Outlook that the West Texas Intermediate (WTI) crude oil spot price is expected to average about \$76 per barrel in 2026 before declining to \$61 per barrel in 2027, up YOY from an average of \$65 per barrel in 2025. Average WTI prices are well above the level needed to profitably drill a new well (\$65 per barrel) in the United States. Following the onset of military action in the Middle East ("Operation Epic Fury") that began on February 28, 2026, energy prices materially increased due to subsequent limited oil tanker traffic through the Strait of Hormuz as well as reduced production and exports from key Middle East countries. Oil tanker traffic temporarily resumed in June and prices declined; however, oil tanker traffic was halted again in July and volatility in energy prices persists as conflict risks remain active. The U.S. benchmark Henry Hub natural gas spot price averaged \$3.53 per million British thermal units in 2025, after increasing 61 percent YOY. EIA's forecast as of July 2026 indicates that the natural gas price is currently expected to continue to increase by about 4 percent in 2026 before declining by 5 percent in 2027.

The July 2026 edition of S&P Global Agricultural Commodity Price Watch estimated that U.S. average farm prices of key Texas District crops such as cotton, corn, soybeans and wheat increased quarter-over-quarter (QOQ) in the second quarter of 2026. Similarly, cotton, soybeans and wheat quarterly average farm prices were estimated to have increased YOY as of the second quarter 2026, while corn average farm prices decreased YOY. In terms of lumber prices, the quarterly average physical cash price increased QOQ and YOY by less than 3 percent as of the second quarter of 2026.

Beginning in early June, the first U.S. confirmed cases of New World screwworm in 60 years were reported in South Texas and New Mexico. In response, the Texas Animal Health Commission has implemented localized quarantine zones, and the U.S. Department of Agriculture has launched aggressive sterile fly dispersal flights over affected regions. U.S. producers and animal health officials have been preparing for a potential outbreak following the initial detection of the parasite in Mexico in November 2024. Effective treatments are available. S&P Global estimates of the percentage change in Live and Feeder Cattle quarterly average prices were mixed (positive for

Texas/Oklahoma live steer and negative for Oklahoma City feeder steers) as of June 2026. Average farm-level milk prices as well as hogs and broilers quarterly average prices increased QOQ in the second quarter 2026. Cattle prices experienced double-digit YOY increases while hog prices remained relatively stable YOY. Broilers and farm-level milk prices were estimated to have decreased YOY as of the second quarter of 2026.

The combined Drought Monitor for the five Texas District states indicates that the drought area categorized as moderate, severe, extreme, and exceptional (D1-D4) declined QOQ by more than half, as indicated by the drought maps dated March 31, 2026 and June 30, 2026. However, the combined drought area in these four categories remains higher than the same period a year ago. As of July 16, 2026, the Seasonal Drought Outlook of the National Weather Service (NWS) indicates that periods of heavy rainfall during the past month have resulted in large drought reductions but also a risk for widespread flooding across central and southern Texas. NWS indicates that there is a slight dry signal in the August-September-October (ASO) seasonal outlook across eastern Texas and western Louisiana. Drought persistence is maintained for most of the Southern region outside of southern Texas. El Niño conditions are present and favored to impact climate conditions during the ASO period.

On June 30, 2026, the U.S. Department of Agriculture (USDA) released its 2026 Acreage report. Corn acreage is estimated to decrease YOY in all five Texas District states as well as at the national level. The Texas District plants about 5 percent of the U.S. corn crop. Texas plants more than 50 percent of the Texas District's corn. Texas District's soybean planted area is estimated to increase by 10 percent in 2026. Mississippi plants about 60 percent of the soybeans in the Texas District. The Texas District's wheat area planted is estimated to slightly decline YOY in 2026. Texas plants more than 90 percent of the wheat area planted in the Texas District. The cotton area planted in the Texas District states is estimated to increase by about 5 percent. Overall, estimates from the June 2026 Acreage report indicate that farmers are planting more soybeans and cotton, but less corn and wheat than last year. These estimates were derived from a USDA survey conducted from May 28 to June 19 and are subject to change throughout the season.

The Bank's loan portfolio is well-supported by industry diversification and conservative advance rates. Additionally, a high percentage of the Bank's borrowers primarily rely on non-farm sources of income to repay their loans.

RESULTS OF OPERATIONS

Net Income

Net income for the three months ended June 30, 2026 was \$63.7 million, an increase of \$15.2 million, or 31.36 percent, over the same period of 2025. The increase in net income was driven by an increase of \$8.0 million in net interest income, a decrease of \$7.9 million in the provision for credit losses on loans and an increase of \$1.0 million in noninterest income, partially offset by an increase of \$1.7 million in noninterest expense.

Net income for the six months ended June 30, 2026 was \$137.5 million, an increase of \$37.5 million, or 37.51 percent, over the same period of 2025. The increase in net income was driven by an increase of \$17.1 million in net interest income, an increase of \$14.8 million in noninterest income and a decrease of \$11.1 million in the provision for credit losses on loans, partially offset by an increase of \$5.4 million in noninterest expense.

Net Interest Income

Net interest income for the three months ended June 30, 2026 was \$108.0 million, an increase of \$8.0 million, or 7.97 percent, from the three months ended June 30, 2025. The increase in net interest income reflects the impact of a \$1.07 billion increase in the Bank's average interest earning assets and a 5 basis point increase in the net interest spread from 0.82 percent to 0.87 percent. The increase in the net interest spread reflects the impact of a 16 basis point decrease in the average rate paid on interest-bearing liabilities, partially offset by an 11 basis point decrease in the yield on average interest-earning assets. Net interest margin was 1.05 percent for the three months ended June 30, 2026, compared to 0.99 percent for the three months ended June 30, 2025.

Net interest income for the six months ended June 30, 2026 was \$212.7 million, an increase of \$17.1 million, or 8.73 percent, from the six months ended June 30, 2025. The increase in net interest income reflects the impact of a \$1.66 billion increase in the Bank's average interest earning assets and a 3 basis point increase in the net interest spread from 0.83 percent to 0.86 percent. The increase in the net interest spread reflects the impact of a 12 basis point decrease in the average rate paid on interest-bearing liabilities, partially offset by a 9 basis point decrease in the yield on average interest-earning assets. Net interest margin was 1.04 percent for the six months ended June 30, 2026, compared to 0.99 percent for the six months ended June 30, 2025.

During the three months ended June 30, 2026 and June 30, 2025, the Bank reduced its interest expense by calling and replacing fixed-rate debt totaling \$275.0 million and \$640.0 million, respectively. As a result of this call activity, the Bank recognized accelerated concession expense of \$534 thousand and \$1.3 million during the three months ended June 30, 2026 and 2025, respectively.

During the six months ended June 30, 2026 and June 30, 2025, the Bank reduced its interest expense by calling and replacing fixed-rate debt totaling \$1.54 billion and \$1.06 billion, respectively. As a result of this call activity, the Bank recognized accelerated concession expense of \$2.8 million and \$2.3 million during the six months ended June 30, 2026 and 2025, respectively.

Provision for Credit Losses on Loans

During the three months ended June 30, 2026, the Bank recorded provision for credit losses on loans of \$6.8 million compared to \$14.7 million in the same period of 2025. The provision for credit losses on loans for the three months ended June 30, 2026 primarily reflects higher general reserves due to isolated credit deterioration in the agribusiness loan sector and, to a lesser extent, a more pessimistic economic outlook impacting modeled credit losses.

During the six months ended June 30, 2026, the Bank recorded provision for credit losses on loans of \$18.3 million compared to \$29.4 million in the same period of 2025. The provision for credit losses on loans for the six months ended June 30, 2026 primarily reflects higher general reserves due to isolated credit deterioration in the agribusiness loan sector and, to a lesser extent, a more pessimistic economic outlook impacting modeled credit losses. Overall loan credit quality remained stable at 99.44 percent acceptable and special mention at June 30, 2026, compared to 99.62 percent at December 31, 2025.

Noninterest Income

Noninterest income for the three months ended June 30, 2026 was \$8.8 million, an increase of \$1.0 million, or 12.93 percent, from the same period of 2025. The increase compared to the prior year period was primarily attributable to the monthly fee for information technology services the Bank

began charging the Associations in January 2026, partially offset by a write-down in value of the underlying collateral reflected in other property owned (OPO).

Noninterest income for the six months ended June 30, 2026 was \$34.4 million, an increase of \$14.8 million, or 75.17 percent, from the same period of 2025. The increase compared to the prior year period was primarily attributable to the monthly fee for information technology services the Bank began charging the Associations in January 2026 and an increase in the return of excess insurance funds from the Farm Credit System Insurance Corporation (FCSIC) of \$4.9 million.

Noninterest Expense

Noninterest expense for the three months ended June 30, 2026 was \$46.4 million, an increase of \$1.7 million, or 3.78 percent, from the same period of 2025. The increase was primarily driven by an increase in professional fees of \$3.3 million, partially offset by a decrease in salaries and employee benefits of \$1.2 million.

Noninterest expense for the six months ended June 30, 2026 was \$91.3 million, an increase of \$5.4 million, or 6.30 percent, from the same period of 2025. The increase was primarily driven by an increase in professional fees of \$5.5 million.

The expense for FCSIC premiums is directly impacted by the premium rate assessed by the FCSIC. The FCSIC board meets periodically throughout the year to review premium rates. The premium rates for 2026 as set by the FCSIC board in February 2026 were 10 basis points on adjusted insured debt and an additional 10 basis points on nonaccrual loans and impaired investments. The premium rates for 2025 as set by the FCSIC board were 10 basis points. On July 8, 2026, the FCSIC board announced that the FCSIC premium on adjusted insured debt would remain unchanged at 10 basis points for the remainder of 2026. Additionally, the assessment of 10 basis points continued on nonaccrual loans and impaired investments.

Key Results of Operations

	Annualized for the Six Months Ended June 30,	
	2026	2025
Return on average assets	0.66%	0.50%
Return on average shareholders' equity	12.79	10.28
Net interest margin	1.04	0.99
Charge-offs, net of recoveries, to average loans	—	0.14
Operating expenses as a percentage of net interest income and noninterest income	36.93	39.89
Operating expenses as a percentage of average earning assets	0.44	0.44

Other Comprehensive Income (Loss)

Other comprehensive income consists of certain gains, losses or costs for which values are included in assets or liabilities on the Balance Sheet but have not yet been recognized in earnings. On the Balance Sheet, they are included in accumulated other comprehensive loss in the statement of shareholders' equity. These elements include unrealized gains or losses on the Bank's available-for-sale (AFS) investment portfolio, changes in elements of the postretirement benefit plans and changes in the value of cash flow derivative instruments.

The table below summarizes the changes in elements included in other comprehensive income (loss):

	Six Months Ended June 30,	
	2026	2025
Change in net unrealized losses on AFS securities:		
Net (increase) decrease in unrealized losses on AFS securities	\$ (33,607)	\$ 90,177
Net (increase) decrease in unrealized losses on AFS securities	(33,607)	90,177
Change in postretirement benefit plans:		
Amortization of actuarial gains	(73)	—
Net change in postretirement benefit plans	(73)	—
Change in cash flow derivative instruments:		
Net increase (decrease) in unrealized gains on cash flow derivative instruments	32,641	(36,185)
Reclassification of losses recognized in interest expense	71	99
Net increase (decrease) in unrealized gains on cash flow derivative instruments	32,712	(36,086)
Other comprehensive (loss) income	\$ (968)	\$ 54,091

During the six months ended June 30, 2026, the Bank recognized other comprehensive loss of \$1.0 million compared to other comprehensive income of \$54.1 million in the prior year period. The decrease was primarily driven by an increase in unrealized losses on the Bank's AFS securities, partially offset by an increase in unrealized gains on cash flow derivative instruments resulting from changes in the valuation of interest rate swaps held by the Bank.

FINANCIAL CONDITION

Loan Portfolio

Gross loan volume at June 30, 2026 was \$33.91 billion, a decrease of \$289.4 million, or 0.85 percent, compared to \$34.20 billion at December 31, 2025. The decrease was primarily due to large repayments on loans related to select borrowers in the production and intermediate-term, energy, real estate mortgage and agribusiness loan sectors in the capital markets portfolio of \$350.8 million. The decrease was partially offset by an increase in direct note receivables from District Associations and OFIs of \$61.4 million.

The Bank's capital markets loan portfolio, also referred to as the participations purchased loan portfolio, predominantly includes participations, syndications, and purchased whole loans, along with other financing structures within our lending authorities. In addition to purchasing loans from District Associations, which may exceed their hold limits, the Bank seeks the purchase of participations and syndications originated outside of the Texas District's territory by other System institutions, commercial banks and other lenders. The Bank's capital markets loan portfolio depends to a significant degree on relationships with other Farm Credit institutions. These loans may be held as interest earning assets of the Bank or sub-participated to District Associations or to other System entities.

The Bank has purchased loan participations and Federal Agricultural Mortgage Corporation (Farmer Mac) guaranteed agricultural mortgage-backed securities (AMBS) from District Associations in Capitalized Participation Pool (CPP) transactions. CPP loans held at June 30, 2026, totaled \$40.4 million and were included in loans on the Balance Sheet. The balance of the AMBS CPP was \$4.1 million at June 30, 2026, which was included in investment securities on the Balance Sheet.

The Bank also purchased loans from District Associations in Non-Capitalized Participation Pool (NCP) transactions. The NCP loans' balance was \$130.7 million at June 30, 2026, and was included in loans on the Balance Sheet.

At June 30, 2026, and December 31, 2025, 99.44 percent and 99.62 percent, respectively, of the Bank's loans were classified as either acceptable or other assets especially mentioned under the Farm Credit Administration's Uniform Loan Classification System based on the amortized cost basis of the loans (principal balance adjusted for discounts, premiums, charge-offs, recoveries and deferred loan fees or costs).

The table below summarizes the amortized cost of the Bank's nonperforming assets, which consist of nonaccrual loans, accruing loans 90 days or more past due and other property owned, at June 30, 2026, and December 31, 2025:

	June 30, 2026	December 31, 2025	Change	
			\$	%
Nonaccrual loans	\$ 31,737	\$ 64,860	\$ (33,123)	(51.07)%
Accruing loans 90 days or more past due	—	—	—	—
Total nonperforming loans	31,737	64,860	(33,123)	(51.07)
Other property owned	23,188	28,583	(5,395)	(18.87)
Total nonperforming assets	\$ 54,925	\$ 93,443	\$ (38,518)	(41.22)%

Nonaccrual loans decreased during the six months ended June 30, 2026 primarily due to repayments in the agribusiness, real estate mortgage and production and intermediate-term loan sectors and the transfer of a real estate mortgage loan to other property owned (OPO), partially offset by advances on loans. The Bank had no accruing loans 90 days or more past due at June 30, 2026 or December 31, 2025. OPO is held for sale and consists of real and personal property acquired through collection activities. At June 30, 2026, the Bank had \$23.2 million in OPO as compared to \$28.6 million at December 31, 2025. The decrease in OPO was due to the write-down in value of the underlying collateral included in OPO and the receipt of proceeds from the sale of underlying collateral, partially offset by the transfer of a real estate mortgage loan to OPO. At June 30, 2026, and December 31, 2025, total nonperforming assets represented 0.16 percent and 0.27 percent of total loans and OPO, respectively.

At June 30, 2026, the Bank had an allowance for credit losses totaling \$67.8 million, with an allowance for credit losses on loans of \$61.3 million and an allowance for credit losses on unfunded commitments of \$6.5 million. The allowance for credit losses relates to the Bank's capital markets loan portfolio. The allowance for credit losses on loans of \$61.3 million at June 30, 2026 equated to 18 basis points of total loans outstanding and 66 basis points of capital market loans outstanding, compared to 12 basis points and 44 basis points, respectively, at December 31, 2025. At December 31, 2025, the Bank had an allowance for credit losses totaling \$49.2 million, with an allowance for credit losses on loans of \$42.5 million and an allowance for credit losses on unfunded commitments of \$6.7 million. At June 30, 2026 and December 31, 2025, there was no allowance for credit losses associated with the direct note receivable portfolio.

The allowance for credit losses on loans as a percentage of nonperforming assets was 111.60 percent at June 30, 2026, compared to 45.49 percent at December 31, 2025.

Liquidity and Funding Sources

The Bank's primary source of liquidity is the ability to issue Systemwide debt securities, which are the general unsecured joint and several obligations of the System banks. The System continued to have reliable access to the debt capital markets to support its mission of providing credit to farmers, ranchers and other eligible borrowers. As a secondary source of liquidity, the Bank maintains an investment portfolio composed primarily of high-quality liquid securities. These securities provide a stable source of income for the Bank, and their high quality ensures the portfolio can quickly be converted to cash should the need arise.

Cash, federal funds sold, overnight investments and investment securities totaled \$7.31 billion, or 17.53 percent, of total assets at June 30, 2026, compared to \$7.40 billion, or 17.55 percent, of total assets at December 31, 2025. At June 30, 2026, the Bank's cash balance was \$29.7 million, of which \$9.2 million was held at the Federal Reserve Bank.

Each System bank is required to maintain a minimum of 90 days of liquidity coverage on a continuous basis. The days of liquidity measurement refers to the number of days that maturing debt could be funded with eligible cash and investment securities. At June 30, 2026, the Bank exceeded all applicable regulatory liquidity requirements and had 166 days of liquidity.

Investments

The Bank's investments are classified as AFS and include a liquidity portfolio and a portfolio of other investments. The majority of the liquidity portfolio's mortgage-backed securities (MBS) includes Government National Mortgage Association (GNMA), Federal National Mortgage Association (FNMA) and Federal Home Loan Mortgage Corporation (FHLMC) securities. The Bank's liquidity portfolio and other investment holdings are summarized in the following table:

	June 30, 2026		December 31, 2025	
	Amortized Cost	Fair Value	Amortized Cost	Fair Value
Liquidity Portfolio:				
Certificates of deposit	\$ 300,000	\$ 300,101	\$ 350,000	\$ 350,188
Corporate debt	15,000	15,104	29,999	30,229
Federal agency collateralized mortgage-backed securities:				
GNMA	2,877,530	2,532,335	3,010,414	2,686,092
FNMA and FHLMC	2,727,038	2,651,440	2,733,377	2,665,847
U.S. Treasury securities	1,043,780	1,041,185	921,542	922,833
Asset-backed securities	213,153	212,994	233,399	233,870
Total liquidity investments	7,176,501	6,753,159	7,278,731	6,889,059
Other Investments:				
Agricultural mortgage-backed securities	4,405	4,124	4,953	4,609
Total investments	\$ 7,180,906	\$ 6,757,283	\$ 7,283,684	\$ 6,893,668

FCA regulations also define eligible investments by specifying credit criteria and the percentage of investment portfolio limit for each investment type. If an investment no longer meets the eligibility criteria, the investment becomes ineligible for inclusion in the liquidity portfolio. At June 30, 2026 and December 31, 2025, the Bank had no investments which were ineligible for liquidity purposes.

The Bank evaluates non-guaranteed investment securities with unrealized losses for impairment on a quarterly basis. As part of the assessment as of June 30, 2026 and December 31, 2025, the Bank evaluated and concluded that it does not intend to sell any securities or it is not more likely than not that it would be required to sell any securities, prior to recovery of the amortized cost basis. The Bank also evaluates whether credit impairment exists by comparing the present value of the expected cash flows to the securities' amortized cost. The Bank concluded that a credit impairment did not exist at June 30, 2026 or December 31, 2025.

Capital Resources

On June 30, 2026, the Bank's total shareholders' equity totaled \$2.23 billion and consisted of \$750.0 million of Class B noncumulative subordinated perpetual preferred stock, \$724.5 million of capital stock, \$1.12 billion of retained earnings and \$364.8 million of accumulated other comprehensive losses. Shareholders' equity at June 30, 2026 increased by \$129.5 million from year-end 2025 due to net income of \$137.5 million and net issuance of capital stock of \$20.2 million, which reflects the semi-annual direct note stock equalization, partially offset by an increase in accumulated other comprehensive loss of \$1.0 million and preferred stock dividends of \$27.0 million.

FCA regulations require the Bank to maintain minimum ratios, including capital conservation buffers, for various regulatory capital ratios. At June 30, 2026, the Bank exceeded all regulatory capital requirements including the capital conservation buffers. The following table reflects the Bank's regulatory capital ratios as of:

	June 30, 2026	December 31, 2025	Total Regulatory Requirements Including Capital Conservation Buffers
Permanent capital ratio	13.59 %	13.29 %	7.00 %
Common equity tier 1 ratio	9.35	9.08	7.00
Tier 1 capital ratio	13.55	13.25	8.50
Total capital ratio	13.89	13.59	10.50
Tier 1 leverage ratio	5.79	5.70	5.00
UREE leverage ratio	2.04	2.03	1.50

RATING AGENCY ACTIONS

In December 2025, Moody's affirmed the Bank's issuer rating at Aa3, with a stable outlook, and the short-term debt rating was affirmed at P-1.

In December 2025, Fitch Ratings affirmed the Bank's long-term and short-term issuer default ratings (IDR) at A+ and F1+, respectively, with a stable outlook.

DERIVATIVE PRODUCTS

Derivative products are a part of the Bank's interest rate risk management process and are used to manage interest rate and liquidity risks and to lower the overall cost of funds. The Bank does not hold or enter into derivative transactions for trading purposes. At June 30, 2026, the notional amount of cleared cash flow hedges was \$2.30 billion with associated posted initial margin of \$47.2 million and variation margin settlements received of \$51.7 million. At December 31, 2025, the notional amount of cleared cash flow hedges was \$1.825 billion with associated posted initial margin of \$37.4 million and variation margin settlements received of \$23.5 million. Cleared derivatives require the payment of initial and variation margin as protection against default.

REGULATORY MATTERS

Regulatory matters that impact the Bank's financial statements and regulatory financial reporting are set forth below.

At June 30, 2026, there were no District Associations operating under written agreements with the Farm Credit Administration.

On July 24, 2026, the FCA published a final rule on loan performance categories and financial reporting in the Federal Register. The rule amends the high-risk loan performance categories by removing formally restructured loans (TDRs) to ensure the regulations remain consistent with U.S. generally accepted accounting principles (U.S. GAAP). The amendment reflects changes in U.S. GAAP that eliminated the measurement guidance for TDRs and replaced it with enhanced disclosure requirements for certain loan modifications to borrowers experiencing financial difficulty. The regulation will be effective 30 days after publication during which either or both Houses of Congress are in session.

On July 2, 2026, the FCA issued an informational memorandum providing guidance on the electronic delivery of annual reports to shareholders. The guidance allows System institutions to provide shareholders with a postcard notice instead of a printed annual report, directing them to a website where the report can be accessed electronically. System institutions may begin using this approach immediately, which is expected to reduce current printing and postage costs.

On April 23, 2026, the FCA published a proposed rule in the Federal Register to update how FCA administrative assessments are apportioned among System entities to reflect changes in the System's composition, affecting the allocation among banks and associations but not the total assessment amount. The comment period ended on June 22, 2026.

On February 27, 2026, the FCA published a proposed rule in the Federal Register that would amend its permanent capital regulations and update other capital-related regulations. This rulemaking would replace references to permanent capital with references to tier 1 and tier 2 capital, simplify the calculation of the permanent capital ratio, eliminate permanent capital reporting requirements from published financial reports, and make other clarifications, corrections, and technical updates to capital-related regulations. The comment period ended on April 28, 2026.

On November 29, 2024, the FCA published a proposed rule on internal control over financial reporting (ICFR) in the Federal Register. The proposed rule would amend the financial reporting regulations to require System associations that meet certain asset thresholds or conditions, as well as the System banks, to obtain annual attestation reports from their external auditors that express an opinion on the effectiveness of ICFR (also known as integrated audit). An association would meet the requirement for an integrated audit if it represents 1 percent of total System assets, 15 percent or more of its System bank's direct loan to associations or if the FCA's Office of Examination determines that a material weakness in the association's ICFR exists. The comment period ended on March 31, 2025.

On February 8, 2024, the FCA approved a final rule to amend its regulatory capital requirements to define and establish risk-weightings for High Volatility Commercial Real Estate (HVCRE) exposures by assigning a 150 percent risk-weighting to such exposures, instead of the current 100 percent to reflect their increased risk characteristics. The rule became effective on January 1, 2026.

Report of Management

The undersigned certify that we have reviewed the June 30, 2026, quarterly report of the Farm Credit Bank of Texas, that the report has been prepared in accordance with all applicable statutory or regulatory requirements, and that the information included herein is true, accurate and complete to the best of our knowledge and belief.

James F. Dodson

Evaluation of Disclosure Controls and Procedures

As of June 30, 2026, management of the Farm Credit Bank of Texas (the Bank) carried out an evaluation with the participation of the Bank's management, including the chief executive officer (CEO) and chief financial officer(s) (CFOs), of the effectiveness of the design and operation of the respective disclosure controls and procedures⁽¹⁾ with respect to this quarterly report. This evaluation is based on testing of the design and effectiveness of key internal controls, certifications and other information furnished to the principal executive officer and principal financial officer(s) of the Bank, as well as incremental procedures performed by the Bank. Based upon and as of the date of the Bank's evaluation, the CEO and the CFOs concluded that the disclosure controls and procedures are effective in alerting them on a timely basis of any material information relating to the Bank that is required to be disclosed by the Bank in the quarterly stockholder reports it files or submits to the Farm Credit Administration.

There have been no significant changes in the Bank's internal control over financial reporting⁽²⁾ that occurred during the quarter ended June 30, 2026, that have materially affected, or are reasonably likely to materially affect, the Bank's internal control over financial reporting.

Brandon Blaut
Chief Executive Officer

⁽¹⁾ For purposes of this discussion, "disclosure controls and procedures" are defined as controls and procedures of the Bank that are designed to ensure that the financial information required to be disclosed by the Bank in this quarterly report is recorded, processed, summarized and reported within the time periods specified under the rules and regulations of the Farm Credit Administration.

⁽²⁾ For purposes of this discussion, "internal control over financial reporting" is defined as a process designed by, or under the supervision of, the Bank's principal executive officer and principal financial officer(s), or persons performing similar functions, and effected by the Bank's board of directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of the Bank's financial statements for external purposes in accordance with generally accepted accounting principles and includes those policies and procedures that: (1) pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of the assets of the Bank; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of the Bank's financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Bank are being made only in accordance with authorizations of management and directors of the Bank; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Bank's assets that could have a material effect on the Bank's financial statements.

Certification

I, Brandon Blaut, certify that:

1. I have reviewed this quarterly report of the Bank.
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report.
3. Based on my knowledge, the financial statements and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the Bank as of, and for, the periods presented in this report.
4. The Bank's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures and internal control over financial reporting for the Bank and have:
 - a. designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the Bank is made known to us, particularly during the period in which this report is being prepared;
 - b. designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. evaluated the effectiveness of the Bank's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. disclosed in this report any change in the Bank's internal control over financial reporting that occurred during the Bank's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Bank's internal control over financial reporting.
5. The Bank's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the Bank's auditors and the Bank's Audit Committee:
 - a. all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the Bank's ability to record, process, summarize and report financial information; and
 - b. any fraud, whether or not material, that involves management or other employees who have a significant role in the Bank's internal control over financial reporting.

Notes to Financial Statements

(Unaudited, dollar amounts in thousands, except as noted)

NOTE 1 — ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

The Farm Credit Bank of Texas (the Bank) is a member of the Farm Credit System (System), a nationwide network of cooperatively owned financial institutions. At June 30, 2026, the Bank provided financing to 12 associations within its chartered territory (District Associations) and certain OFIs. These financial statements relate solely to the Bank and exclude financial information of the District Associations.

The accompanying unaudited financial statements have been prepared in accordance with U.S. generally accepted accounting principles (U.S. GAAP) for interim financial information. Certain disclosures included in the annual financial statements have been condensed or omitted from these financial statements as they are not required for interim financial statements under U.S. GAAP and the rules of the Farm Credit Administration (FCA). This report should be read in conjunction with the audited financial statements for the year ended December 31, 2025, as contained in the 2025 annual report to shareholders (2025 Annual Report).

Certain amounts in the prior period's financial statements have been reclassified to conform to the current period's financial statement presentation.

In the opinion of management, all adjustments, consisting of normal recurring adjustments, necessary for a fair statement of results for the interim periods have been made. The preparation of the financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates. The results of operations for interim periods are not necessarily indicative of the results to be expected for the year ending December 31, 2026. Descriptions of the significant accounting policies are included in the 2025 Annual Report. In the opinion of management, these policies and the presentation of the interim financial condition and results of operations conform with U.S. GAAP and prevailing practices within the banking industry.

Recently Issued or Adopted Accounting Pronouncements

In December 2025, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2025-11 Interim Reporting (Topic 270): Narrow-Scope Improvements. The update provides narrow-scope improvements to interim reporting guidance to enhance clarity, navigability and completeness of interim financial statements and disclosures, without fundamentally changing reporting requirements. Key changes include clarifying who is subject to interim reporting requirements, adding comprehensive lists of required disclosures from other Codification topics, and establishing a principle to disclose events that have material impact on the entity since the end of the last annual reporting period. This update is effective for public business entities for interim reporting periods within annual reporting periods beginning after December 15, 2027, and for other entities after December 15, 2028, with early adoption permitted. The Bank is currently evaluating the potential impact of adoption on the Bank's financial condition, results of operations and cash flows.

In November 2025, the FASB issued ASU 2025-09 Derivatives and Hedging (Topic 815): Hedge Accounting Improvements. This update simplifies hedge accounting by allowing broader grouping of forecasted transactions with "similar risk exposure" (not identical), provides a new model for hedging "choose-your-rate" debt, expanding nonfinancial component hedging, and clarifying the use of net written options as instruments, aiming to reduce complexity and better align accounting

with actual risk management. This update is effective for public business entities for annual periods (including interim periods within those annual periods) starting after December 15, 2026, and for other entities a year later (after December 15, 2027), with early adoption permitted. The Bank is currently evaluating the potential impact of adoption on the Bank's financial condition, results of operations and cash flows.

In November 2025, the FASB issued ASU 2025-08 Financial Instruments – Credit Losses (Topic 326) – Purchased Loans. This update simplifies accounting for purchased loans by expanding the "gross-up" method to "purchased seasoned loans" (PSLs). This eliminates the Day 1 credit loss expense for most acquired loans, improves comparability, and reduces earnings volatility by creating a more consistent accounting approach similar to that used for previously purchased credit-deteriorated (PCD) loans. This update is effective for annual periods beginning after December 15, 2026, including interim periods within those years. Early adoption is permitted. The Bank is currently evaluating the potential impact of adoption on the Bank's financial condition, results of operations and cash flows.

In September 2025, the FASB issued ASU 2025-07 Derivatives and Hedging (Topic 815) and Revenue from Contracts with Customers. This amendment updates the accounting rules for businesses by providing a scope exception for certain derivative contracts that are based on operations or activities specific to one of the parties, and clarifies that the revenue accounting guidance applies to share-based noncash consideration received from customers. This update is effective for annual periods starting after December 15, 2026, with early adoption permitted. The Bank is currently evaluating the potential impact of adoption on the Bank's financial condition, results of operations and cash flows.

In September 2025, the FASB issued ASU 2025-06 Intangibles – Goodwill and Other – Internal-Use Software (Subtopic 350-40): Targeted Improvements to the Accounting for Internal-Use Software. This update introduces several key changes: (1) eliminates the stage-based rules for capitalization, (2) replaces these rules with a principles-based framework where (a) capitalization occurs when management has authorized and committed to funding, and (b) it is probable that the project will be completed and the software used as intended, (3) clarifies website development costs and (4) modifies the disclosure requirements for capitalized software costs. This update is effective for annual periods starting after December 15, 2027, with early adoption permitted as of the beginning of any annual reporting period. The Bank is currently evaluating the potential impact of adoption on the Bank's financial condition, results of operations and cash flows.

In July 2025, the FASB issued ASU 2025-05 Financial Instruments – Credit Losses (Topic 326): Measurement of Credit Losses for Accounts Receivable and Contract Assets. The amendments in this update provided all entities with a practical expedient which would allow all entities when developing reasonable and supportable forecasts as part of estimating credit losses to assume that current conditions as of the balance sheet date do not change for the remaining life of the asset. The update also provided entities other than public business entities with an accounting policy election when estimating expected credit losses for current accounts receivable and current contract assets arising from transactions accounted for under revenue recognition guidance. The Bank adopted this guidance effective January 1, 2026 and elected to apply the practical expedient, as applicable. The adoption of this update did not have a material impact on the Bank's financial condition, results of operations and cash flows.

In November 2024, the FASB issued ASU 2024-03 Income Statement – Reporting Comprehensive Income – Expense Disaggregation Disclosures (Subtopic 220-40): Disaggregation of Income Statement Expenses. This update applies to all public business entities, and requires disclosure, in

the notes to financial statements, of specified information about certain costs and expenses. The amendments require that at each interim and annual reporting period an entity:

- Disclose the amounts of (a) purchases of inventory, (b) employee compensation, (c) depreciation, (d) intangible asset amortization, and (e) depreciation, depletion and amortization recognized as part of oil and gas-producing activities (or other amounts of depletion expense) included in each relevant expense caption. A relevant expense caption is an expense caption presented on the face of the income statement within continuing operations that contains any of the expense categories listed in (a) through (e).
- Include certain amounts that are already required to be disclosed under current U.S. GAAP in the same disclosure as the other disaggregation requirements.
- Disclose a qualitative description of the amounts remaining in relevant expense captions that are not separately disaggregated quantitatively.
- Disclose the total amount of selling expenses and, in annual reporting periods, an entity's definition of selling expenses.

The update is effective for annual reporting periods beginning after December 15, 2026 and interim reporting periods beginning after December 15, 2027. Early adoption is permitted. The amendments should be applied either (1) prospectively to financial statements issued for reporting periods after the effective date of this update, or (2) retrospectively to any or all periods presented in the financial statements. The Bank is currently evaluating the potential impact of this update on its disclosures; however, adoption will not have an impact on the Bank's financial condition, results of operation or cash flows.

NOTE 2 — INVESTMENT SECURITIES

The Bank's available-for-sale (AFS) investments include a liquidity portfolio and a portfolio of other investments. The liquidity portfolio consists primarily of agency-guaranteed debt instruments, mortgage-backed securities (MBS), U.S. Treasury securities, asset-backed securities (ABS), corporate debt and certificates of deposit. The liquidity portfolio's MBS were federal agency-guaranteed collateralized MBS, including Government National Mortgage Association (GNMA), Federal National Mortgage Association (FNMA) and Federal Home Loan Mortgage Corporation (FHLMC) securities. The Bank's other investments portfolio consists of Federal Agricultural Mortgage Corporation (Farmer Mac) guaranteed agricultural mortgage-backed securities (AMBS) purchased from District Associations.

There were no investments in a held-to-maturity (HTM) portfolio at June 30, 2026, and December 31, 2025.

A summary of the amortized cost and fair value of the AFS investment securities in the liquidity portfolio and other investment portfolio at June 30, 2026, and December 31, 2025, is included in the following tables:

June 30, 2026	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value	Weighted Average Yield
Liquidity Portfolio:					
Certificates of deposit	\$ 300,000	\$ 101	\$ —	\$ 300,101	4.01%
Corporate debt	15,000	104	—	15,104	4.90
Federal agency collateralized mortgage-backed securities:					
GNMA	2,877,530	395	(345,590)	2,532,335	2.51
FNMA and FHLMC	2,727,038	3,690	(79,288)	2,651,440	3.65
U.S. Treasury securities	1,043,780	343	(2,938)	1,041,185	3.85
Asset-backed securities	213,153	197	(356)	212,994	4.18
Total liquidity investments	7,176,501	4,830	(428,172)	6,753,159	3.26
Other Investments:					
Agricultural mortgage-backed securities	4,405	—	(281)	4,124	5.85
Total investments	<u>\$ 7,180,906</u>	<u>\$ 4,830</u>	<u>\$ (428,453)</u>	<u>\$ 6,757,283</u>	

December 31, 2025	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value	Weighted Average Yield
Liquidity Portfolio:					
Certificates of deposit	\$ 350,000	\$ 188	\$ —	\$ 350,188	4.09%
Corporate debt	29,999	265	(35)	30,229	2.85
Federal agency collateralized mortgage-backed securities:					
GNMA	3,010,414	4,367	(328,689)	2,686,092	2.52
FNMA and FHLMC	2,733,377	8,539	(76,069)	2,665,847	3.72
U.S. Treasury securities	921,542	1,336	(45)	922,833	3.82

Total investments	<u>\$ 7,283,684</u>	<u>\$ 15,375</u>	<u>\$ (405,391)</u>	<u>\$ 6,893,668</u>	

Accrued interest receivable of \$19.2 million and \$19.6 million as of June 30, 2026, and December 31, 2025, respectively, has been excluded from the amortized cost basis of AFS investments.

The following table summarizes the contractual maturity, estimated fair value, amortized cost and weighted average yield of AFS investments by type at June 30, 2026:

	Due in One Year Or Less	Due After One Year Through Five Years	Due After Five Years Through 10 Years	Due After 10 Years	Total
Liquidity Portfolio:					
Certificates of deposit	\$ 250,093	\$ 50,008	\$ —	\$ —	\$ 300,101
Corporate debt	—	15,104	—	—	15,104
Federal agency collateralized mortgage-backed securities:					
GNMA	—	4,013	14,487	2,513,835	2,532,335
FNMA and FHLMC	13,626	1,066,476	625,983	945,355	2,651,440
U.S. Treasury securities	447,764	593,421	—	—	1,041,185
Asset-backed securities	—	73,193	77,312	62,489	212,994
Total fair value	\$ 711,483	\$ 1,802,215	\$ 717,782	\$ 3,521,679	\$ 6,753,159
Total amortized cost	\$ 711,408	\$ 1,807,598	\$ 739,721	\$ 3,917,774	\$ 7,176,501
Weighted average yield	3.98%	4.01%	3.40%	2.75%	3.26%
Other Investments:					
Fair value of agricultural mortgage- backed securities	\$ —	\$ 4,124	\$ —	\$ —	\$ 4,124
Total amortized cost	\$ —	\$ 4,405	\$ —	\$ —	\$ 4,405
Weighted average yield	—%	5.85%	—%	—%	5.85%

A large portion of mortgage-backed securities have contractual maturities in excess of ten years. However, expected and actual maturities for mortgage-backed securities will typically be shorter than contractual maturities because borrowers generally have the right to prepay the underlying mortgage obligations with or without prepayment penalties.

The following table shows investment securities by gross unrealized losses and fair value, aggregated by investment category and length of time that the securities have been in a continuous unrealized loss position at June 30, 2026. The continuous loss position is based on the date the impairment was first identified. An investment is considered impaired if its fair value is less than its cost.

	Less Than 12 Months		Greater Than 12 Months		Total	
	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses
Liquidity Portfolio:						
Federal agency collateralized mortgage- backed securities:						
GNMA	\$ 494,354	\$ (4,219)	\$ 1,851,207	\$ (341,371)	\$ 2,345,561	\$ (345,590)
FNMA and FHLMC	675,246	(2,591)	1,230,132	(76,697)	1,905,378	(79,288)
U.S. Treasury securities	494,577	(2,938)	—	—	494,577	(2,938)
Asset-backed securities	127,568	(262)	12,006	(94)	139,574	(356)
Total liquidity investments	1,791,745	(10,010)	3,093,345	(418,162)	4,885,090	(428,172)
Other Investments:						
Agricultural mortgage-backed securities	—	—	4,124	(281)	4,124	(281)
Total investments	\$ 1,791,745	\$ (10,010)	\$ 3,097,469	\$ (418,443)	\$ 4,889,214	\$ (428,453)

At June 30, 2026, and December 31, 2025, U.S. Treasury and agency-guaranteed debt and all (or substantially all) mortgage-backed securities had a zero loss assumption. The Bank does not consider these unrealized losses to be credit-related, and therefore, an allowance for credit losses is not necessary. The Bank evaluates non-guaranteed investment securities with unrealized losses for impairment on a quarterly basis. As a result of the assessment as of June 30, 2026, and December 31, 2025, the Bank concluded that it does not intend to sell any securities and it is not more likely than not that it would be required to sell any securities, prior to recovery of the amortized cost basis. If it is determined that a security is impaired, the Bank will evaluate whether credit impairment exists by comparing the present value of the expected cash flows to the security's amortized cost basis. Credit impairment is recorded as an allowance for credit losses (ACL) for debt securities. The Bank concluded that a credit impairment did not exist at June 30, 2026, and December 31, 2025.

NOTE 3 — LOANS AND ALLOWANCE FOR CREDIT LOSSES ON LOANS

Loans

Loans comprised the following categories at:

	June 30, 2026	December 31, 2025
Direct notes receivable from District Associations and OFIs	\$ 24,609,421	\$ 24,547,988
Capital markets loan portfolio	9,298,334	9,649,117
Total	<u>\$ 33,907,755</u>	<u>\$ 34,197,105</u>

A summary of the amortized cost of the Bank's loans by types follows:

	June 30, 2026	December 31, 2025
Direct notes receivable from District Associations	\$ 24,536,806	\$ 24,479,816
Real estate mortgage	1,217,567	1,304,095
Production and intermediate-term	1,342,918	1,451,568
Agribusiness		
Loans to cooperatives	602,295	553,188
Processing and marketing	3,140,088	3,263,403
Farm-related business	300,534	284,963
Communications	738,168	717,916
Energy (rural utilities)	1,708,416	1,813,074
Water and waste disposal	163,568	148,077
Rural home	775	791
International	79,200	106,776
Mission-related	1,773	1,885
Lease receivables	3,032	3,381
Loans to OFIs	72,615	68,172
Total	<u>\$ 33,907,755</u>	<u>\$ 34,197,105</u>

The Bank's capital markets loan portfolio predominantly includes participations, syndications and purchased whole loans, along with other financing structures within our lending authorities. The Bank also refers to the capital markets portfolio as participations purchased. In addition to purchasing loans from our District Associations, which may exceed their hold limits, the Bank seeks the purchase of participations and syndications originated outside of the Texas District's territory by other System institutions, commercial banks and other lenders. Our capital markets loan portfolio depends to a significant degree on our relationships with other Farm Credit institutions. These loans may be held as interest earning assets of the Bank or sub-participated to District

Associations or other System entities. The Bank purchases or sells participation interests with other parties in order to diversify risk, manage loan volume and comply with FCA regulations.

The following table presents information on loan participations and their related amortized cost, excluding syndications, at June 30, 2026:

	Other Farm Credit Institutions		Non-Farm Credit Institutions		Total	
	Participations Purchased	Participations Sold	Participations Purchased	Participations Sold	Participations Purchased	Participations Sold
Real estate mortgage	\$ 1,369,227	\$ 262,131	\$ —	\$ —	\$ 1,369,227	\$ 262,131
Production and intermediate-term	3,917,652	2,656,776	8,067	—	3,925,719	2,656,776
Agribusiness	3,311,130	1,064,560	44,286	—	3,355,416	1,064,560
Communications	945,294	206,052	—	—	945,294	206,052
Energy (rural utilities)	1,827,148	118,702	—	—	1,827,148	118,702
Water and waste disposal	187,727	24,049	—	—	187,727	24,049
Rural home	775	—	—	—	775	—
International	172,852	93,604	—	—	172,852	93,604
Mission-related	1,773	—	—	—	1,773	—
Lease receivables	3,795	764	—	—	3,795	764
Direct notes receivable from District Associations	—	4,350,000	—	—	—	4,350,000
Total	\$ 11,737,373	\$ 8,776,638	\$ 52,353	\$ —	\$ 11,789,726	\$ 8,776,638

The Bank has purchased loan participations and Farmer Mac guaranteed AMBS from District Associations in Capitalized Participation Pool (CPP) transactions. As a condition of the transactions, the Bank redeemed common stock in the amount of 2.0 percent of the par value of the loans and AMBS purchased, and the District Associations bought Bank stock equal to 8.0 percent of the purchased loans' par value and 1.6 percent of the AMBS's par value. CPP loans held at June 30, 2026, totaled \$40.4 million and were included in loans on the Balance Sheet. The balance of the AMBS CPP was \$4.1 million at June 30, 2026, and was included in investment securities on the Balance Sheet.

The Bank also purchased loans from District Associations in Non-Capitalized Participation Pool (NCPP) transactions. As a condition of the transactions, the Bank redeemed common stock in the amount of 2.0 percent of the par value of the loans purchased. The NCPP loans balance was \$130.7 million at June 30, 2026, and was included in loans on the Balance Sheet.

As part of its capital markets loan portfolio, the Bank purchases and sells numerous participations, syndications or whole loans during the year. The majority of these transactions are sold at par value, with no recognition of gain or loss as they are purchased or sold close to the origination date. During the six months ended June 30, 2026, the Bank sold 24 loans at other than par value with an amortized cost of \$91.0 million, which resulted in the recognition of a loss of \$327 thousand. There were no loans held for sale at June 30, 2026, or December 31, 2025.

Credit Quality

Credit risk arises from the potential inability of an obligor to meet its payment obligation and exists in our outstanding loans, letters of credit and unfunded loan commitments. The Bank manages credit risk associated with the retail lending activities through an analysis of the credit risk profile of an individual borrower using its own set of underwriting standards and lending policies, approved by its board of directors, which provides direction to its loan officers. The retail credit risk management process begins with an analysis of the borrower's credit history, repayment capacity, financial position and collateral, which includes an analysis of credit scores for smaller

loans. Repayment capacity focuses on the borrower's ability to repay the loan based on cash flows from operations or other sources of income, including off-farm income. Real estate mortgage loans must be secured by first liens on the real estate (collateral). As required by FCA regulations, institutions that make loans on a secured basis must have collateral evaluation policies and procedures. Real estate mortgage loans may be made only in amounts up to 85 percent of the original appraised value of the property taken as security or up to 97 percent of the appraised value if guaranteed by a state, federal, or other governmental agency. The actual loan to appraised value when loans are made is generally lower than the statutory maximum percentage. Loans other than real estate mortgages may be made on a secured or unsecured basis.

The Bank uses a two-dimensional loan risk rating model based on internally generated combined System risk rating guidance that incorporates a 14-point risk rating scale to identify and track the probability of borrower default and a separate scale addressing loss given default over a period of time. Probability of default rating is management's assumption of the probability that a borrower will experience a default within 12 months from the date of the determination of the risk rating. A default is considered to have occurred if the lender believes the borrower will not be able to pay its obligation in full or the borrower is past due more than 90 days. The loss given default is management's assumption as to the anticipated principal loss on a specific loan assuming default occurs during the remaining life of the loan. This credit risk rating process incorporates objective and subjective criteria to identify inherent strengths, weaknesses and risks in a particular relationship. The Bank reviews, at least on an annual basis or when a credit action is taken, the probability of default category.

One credit quality indicator utilized by the Bank is the Farm Credit Administration Uniform Loan Classification System that categorizes loans into five categories. The categories are defined as follows:

- *Acceptable* – assets are expected to be fully collectible and represent the highest quality;
- *Other assets especially mentioned (OAEM)* – assets are currently collectible but exhibit some potential weakness;
- *Substandard* – assets exhibit some serious weakness in repayment capacity, equity or collateral pledged on the loan. Substandard classification is divided between viable and non-viable based on extent of weaknesses and likelihood of collection in full;
- *Doubtful* – assets exhibit similar weaknesses to substandard assets; however, doubtful assets have additional weaknesses in existing factors, conditions and values that make collection in full highly questionable; and
- *Loss* – assets are considered uncollectible.

The following table presents the amortized cost of loans classified under the Uniform Loan Classification System as a percentage of the amortized cost of total loans:

	June 30, 2026	December 31, 2025
Acceptable	98.46 %	98.60 %
OAEM	0.98	1.02
Substandard	0.56	0.38
Doubtful	—	—
Total	100.00 %	100.00 %

The following table presents credit quality indicators by loan type and the related amortized cost loan balance for the loan portfolio as of June 30, 2026:

Accrued interest receivable on loans of \$142.8 million and \$141.9 million at June 30, 2026 and December 31, 2025, respectively, has been excluded from the amortized cost of loans and is reported separately in the Balance Sheet. During the three and six months ended June 30, 2026, the Bank reversed \$2 thousand in accrued interest receivable against interest income. During the three and six months ended June 30, 2025, the Bank reversed \$204 thousand and \$325 thousand in accrued interest receivable against interest income, respectively.

The following table reflects nonperforming assets, which consist of nonaccrual participation loans, accruing participation loans 90 days or more past due and other property owned. No direct notes to District Associations were nonperforming at June 30, 2026, and December 31, 2025.

	June 30, 2026	December 31, 2025
Nonaccrual loans:		
Real estate mortgage	\$ 5,434	\$ 14,901
Production and intermediate-term	—	3,365
Agribusiness	25,239	45,228
Energy and water/waste disposal	1,064	1,366
Total nonaccrual loans	31,737	64,860
Total accruing loans 90 days or more past due	—	—
Other property owned	23,188	28,583
Total nonperforming assets	\$ 54,925	\$ 93,443
Nonaccrual loans as a percentage of total loans	0.09 %	0.19 %
Nonperforming assets as a percentage of total loans and other property owned	0.16	0.27
Nonperforming assets as a percentage of capital	2.46	4.45

The following table provides the amortized cost for nonaccrual loans with and without a related allowance for credit losses on loans, as well as interest income recognized on nonaccrual loans during the period:

	Balance at June 30, 2026			Interest Income Recognized for the Three Months Ended June 30, 2026	Interest Income Recognized for the Six Months Ended June 30, 2026
	Amortized Cost with Allowance	Amortized Cost without Allowance	Total		
Nonaccrual loans:					
Real estate mortgage	\$ —	\$ 5,434	\$ 5,434	\$ —	\$ —

A loan is considered collateral dependent when the borrower is experiencing financial difficulty and repayment is expected to be provided substantially through the operation or sale of the collateral. Collateral dependent loans are primarily production and intermediate-term, agribusiness, energy and water/waste disposal and real estate mortgage loans.

Loan Modifications to Borrowers Experiencing Financial Difficulties

Upon the adoption of the guidance, Financial Instruments – Credit Losses, Troubled Debt Restructurings and Vintage Disclosure, creditors are required to disclose specific modifications with borrowers that are experiencing financial difficulty.

For loan modifications granted to borrowers experiencing financial difficulty during the three and six months ended June 30, 2026, the following table shows the amortized cost of outstanding balances as reflected in our Balance Sheet, disaggregated by loan type and type of modification granted:

	Three and Six Months Ended June 30, 2026			Percentage of Total by Loan Type
	Term Extension	Payment Deferral	Total	
Real estate mortgage	\$ —	\$ 6,895	\$ 6,895	0.57 %
Production and intermediate-term	11,335	—	11,335	0.84
Agribusiness	31,324	—	31,324	0.77
Total	<u>\$ 42,659</u>	<u>\$ 6,895</u>	<u>\$ 49,554</u>	0.15 %

All loans modified during the first quarter of 2026 were either repaid or further modified during the three months ended June 30, 2026.

Accrued interest receivable related to loan modifications granted to borrowers experiencing financial difficulty during the three and six months ended June 30, 2026 totaled \$278 thousand which has been excluded from the amortized cost of loans in the table above and is reported separately on the Balance Sheet. Additional commitments to lend to borrowers experiencing financial difficulty whose loans were modified during the six months ended June 30, 2026, totaled \$25.6 million.

For loan modifications granted to borrowers experiencing financial difficulty during the three and six months ended June 30, 2025, the following table shows the amortized cost of outstanding balances as reflected in our Balance Sheet, disaggregated by loan type and type of modification granted:

	Three and Six Months Ended June 30, 2025		Percentage of Total by Loan Type
	Term Extension		
Agribusiness	\$ 3,327		0.08 %
Total	<u>\$ 3,327</u>		0.01

Accrued interest receivable related to loan modifications granted to borrowers experiencing financial difficulty during the three and six months ended June 30, 2025, totaled \$29 thousand which has been excluded from the amortized cost of loans in the table above and is reported separately on the Balance Sheet. Additional commitments to lend to borrowers experiencing financial difficulty whose loans were modified during the six months ended June 30, 2025 totaled \$1.2 million.

The following table describes the financial effects of the modifications made to borrowers experiencing financial difficulty during the three months ended June 30, 2026 and June 30, 2025:

Financial Effect - Term Extension		
Three Months Ended		
	June 30, 2026	June 30, 2025
Production and intermediate-term	Added a weighted average of 1.00 month to the life of the loan	—
Agribusiness	Added a weighted average of 2.04 years to the life of the loan	Added a weighted average of 11.97 months to the life of the loan
Financial Effect - Payment Deferral		
Three Months Ended		
	June 30, 2026	June 30, 2025
Real estate mortgage	Added a weighted average of 2.96 months to the life of the loan	—

The following table describes the financial effects of the modifications made to borrowers experiencing financial difficulty during the six months ended June 30, 2026 and June 30, 2025:

Financial Effect - Term Extension		
Six Months Ended		
	June 30, 2026	June 30, 2025
Production and intermediate-term	Added a weighted average of 2.96 months to the life of the loan	—
Agribusiness	Added a weighted average of 1.56 years to the life of the loan	Added a weighted average of 11.97 months to the life of the loan
Financial Effect - Payment Deferral		
Six Months Ended		
	June 30, 2026	June 30, 2025
Real estate mortgage	Added a weighted average of 2.96 months to the life of the loan	—

During the three and six months ended June 30, 2026, and June 30, 2025, there were no defaults on loans to borrowers experiencing financial difficulty that had received a modification in the twelve months before default.

The following table sets forth an aging analysis of loans to borrowers experiencing financial difficulty that were modified during the twelve months prior to June 30, 2026:

Payment Status of Loans Modified in the Past 12 Months				
	Current	30-89 Days Past Due	90 Days or More Past Due	Total
Real estate mortgage	\$ 6,895	\$ —	\$ —	\$ 6,895
Production and intermediate-term	11,335	—	—	11,335
Agribusiness	59,222	—	—	59,222
Total	\$ 77,452	\$ —	\$ —	\$ 77,452

The Bank had \$29.1 million in agribusiness loans that were modified in the twelve months prior to June 30, 2025, all of which were current in all required payments.

Allowance for Credit Losses on Loans and Allowance for Credit Losses on Unfunded Commitments

The credit risk rating methodology is a key component of the Bank's allowance for credit losses evaluation and is generally incorporated into the Bank's loan underwriting standards and internal lending limits. In addition, borrower and commodity concentration lending and leasing limits have

been established by the Bank to manage credit exposure. The regulatory limit to a single borrower or lessee is 15 percent of the Bank's lending and leasing limit base, but the Bank's board of directors have generally established more restrictive lending limits.

A summary of changes in the allowance for credit losses by portfolio segment for the three and six months ended June 30, 2026 is as follows:

	Real Estate Mortgage	Production and Intermediate-term	Agri-business	Communications	Energy and Water/Waste Disposal	Rural Home	International	Mission-Related	Lease Receivables	Direct Notes to District Associations	Loans to OFIs	Total
Allowance for credit losses on loans:												
Balance at March 31, 2026	\$ 5,577	\$ 2,760	\$ 40,590	\$ 1,760	\$ 2,680	\$ 2	\$ 215	\$ 6	\$ —	\$ —	\$ —	\$ 53,590

Discussion of Changes in Allowance for Credit Losses

The ACL increased \$18.6 million to \$67.8 million at June 30, 2026, as compared to \$49.2 million at December 31, 2025. The increase was driven by an increase in the provision for credit losses on loans resulting from higher general reserves due to isolated credit deterioration in the agribusiness loan sector and, to a lesser extent, a more pessimistic economic outlook.

The Bank's macroeconomic forecast includes a weighted average selection of a third-party vendor's economic scenarios over a reasonable and supportable forecast period of two years. The economic scenarios utilized in the June 30, 2026, estimate for the allowance for credit losses were based on the following: a baseline scenario, which represents a relatively stable economic environment; a downside scenario reflecting an economic recession during the forecast period; and an upside scenario that considers the potential for economic improvement relative to the baseline scenario. The economic forecasts incorporate macroeconomic variables, including the U.S. unemployment rate, Dow Jones Total Stock Market Index and U.S. corporate bond spreads. The macroeconomic forecasts for these variables deteriorated relative to the prior quarter resulting in higher provision for credit losses on loans during the three and six months ended June 30, 2026.

NOTE 4 — LEASES

The Bank maintains a lease for its headquarters facility in Austin, Texas, which expires in December 2034. This lease is for approximately 111,500 square feet of office space ranging from \$18 to \$38 per square foot during the term of the lease. Lease expense for the headquarters facility includes certain operating expenses passed through from the landlord.

The Bank entered into a desk sharing agreement in Washington, D.C., as of January 1, 2026, with the National Council of Farmer Cooperatives for legislative affairs purposes. The lease will expire on December 31, 2026. In addition, the Bank entered into a sublease for additional space in the same building with Faith in Public Life, Inc. for legislative affairs purposes, with a term from November 1, 2025 through October 31, 2026.

The Bank currently holds leases for postage machines, copiers, coffee machines and ice machines. The postage machines lease has an expiration date of April 2027. The lease for copiers has an expiration date of August 2026. The leases for the coffee machines and ice machines are currently month-to-month leases.

Lease expenses, which are included as a component of occupancy and equipment expense in the Statements of Comprehensive Income, totaled \$1.3 million and \$2.6 million for the three and six months ended June 30, 2026, respectively, and \$1.2 million and \$2.5 million for the three and six months ended June 30, 2025, respectively.

Other information related to leases includes:

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2026	2025	2026	2025
Cash paid for amounts included in the measurement of lease liabilities:				
Operating cash flows for operating leases	\$ 894	\$ 882	\$ 1,799	\$ 1,782

At June 30, 2026, the weighted-average remaining lease term for the building, copier and postage machine leases was 8.57 years, and the weighted-average discount rate was 2.42 percent. At December 31, 2025, the weighted-average remaining lease term for the building, copier and postage machine leases was 9.06 years, and the weighted-average discount rate was 2.42 percent. The discount rates were determined using the Bank's incremental borrowing rate for bonds with terms similar to the lease terms. The following are the undiscounted cash flows for operating leases at June 30, 2026:

	Maturities of Lease Liabilities
Remainder of 2026	\$ 3,561
2027	3,624
2028	3,646
2029	3,708
2030	3,768
Thereafter	20,001
Total undiscounted cash flows	38,308
Less interest expense	4,521
Lease liability	\$ 33,787

The lease expense for leases with terms of 12 months or less was \$15 thousand and \$42 thousand for the three and six months ended June 30, 2026, respectively, compared with \$6 thousand and \$8 thousand for the three and six months ended June 30, 2025, respectively.

NOTE 5 — COMMITMENTS AND CONTINGENCIES

The Bank has various outstanding commitments and contingent liabilities as discussed elsewhere in these notes.

The Bank is primarily liable for its portion of Systemwide debt obligations. Additionally, the Bank is jointly and severally liable for the consolidated Systemwide bonds and notes of the other System banks. The total Bank and consolidated Systemwide debt obligations of the System at June 30, 2026, were approximately \$480.261 billion.

In the normal course of business, the Bank incurs a certain amount of claims, litigation, and other legal and administrative proceedings, all of which are considered incidental to the normal conduct of business. The Bank believes it has meritorious defenses to the claims currently asserted against it, and, with respect to such legal proceedings, intends to defend itself vigorously, litigating or settling cases according to management's judgment as to what is in the best interest of the Bank and its shareholders.

On at least a quarterly basis, the Bank assesses its liabilities and contingencies in connection with outstanding legal proceedings utilizing the latest information available. For those matters where it is probable that the Bank would incur a loss and the amount of the loss could be reasonably estimated, the Bank would record a liability in its financial statements. These liabilities would be

increased or decreased to reflect any relevant developments on a quarterly basis. For other matters, where a loss is not probable or the amount of the loss is not estimable, the Bank does not record a liability.

To the extent any other actions are pending against the Bank, upon the basis of current information, management and legal counsel are of the opinion that any resulting losses are not probable, and that the ultimate liability, if any, resulting from a lawsuit and other pending actions will not be material in relation to the financial position, results of operations or cash flows of the Bank.

NOTE 6 — FAIR VALUE MEASUREMENTS

Authoritative accounting guidance defines fair value as the exchange price that would be received for an asset or paid to transfer a liability in an orderly transaction between market participants in the principal or most advantageous market for the asset or liability. See Note 2, “Summary of Significant Accounting Policies” in the 2025 Annual Report and “Valuation Techniques” at the end of this note for additional information.

Assets and liabilities measured at fair value on a recurring basis at June 30, 2026, for each of the fair value hierarchy levels are summarized below:

	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Assets:				
Federal funds sold and other overnight funds	\$ 526,081	\$ —	\$ 526,081	\$ —
Available-for-sale investments				
Certificates of deposit	300,101	—	300,101	—
Corporate debt	15,104	—	15,104	—
Mortgage-backed securities	5,183,775	—	5,183,775	—
U.S. Treasury securities	1,041,185	—	1,041,185	—
Asset-backed securities	212,994	—	212,994	—
Agricultural mortgage-backed securities	4,124	—	—	4,124
Derivative assets	5,431	—	5,431	—
Assets held in nonqualified benefit trusts	4,085	4,085	—	—
Total assets	<u>\$ 7,292,880</u>	<u>\$ 4,085</u>	<u>\$ 7,284,671</u>	<u>\$ 4,124</u>
Liabilities:				
Letters of credit	2,164	—	—	2,164
Total liabilities	<u>\$ 2,164</u>	<u>\$ —</u>	<u>\$ —</u>	<u>\$ 2,164</u>

Derivative assets as of June 30, 2026, reflects the fair value of the derivatives of \$57.2 million, offset by variation margin settlements of \$51.7 million.

The table below represents a reconciliation of all Level 3 assets and liabilities measured at fair value on a recurring basis for the three months ended June 30, 2026:

	Assets		Liabilities		
	Agricultural Mortgage-Backed Securities		Letters of Credit		Total
Balance at March 31, 2026	\$ 4,377		\$ 2,365		\$ 2,012
Net gains included in other comprehensive income	46		—		46
Settlements	(299)		(201)		(98)
Balance at June 30, 2026	\$ 4,124		\$ 2,164		\$ 1,960
The amount of gains/losses for the period included in other comprehensive income attributable to the change in unrealized gains or losses relating to assets or liabilities still held at June 30, 2026					
	\$ 46		\$ —		\$ 46

The table below represents a reconciliation of all Level 3 assets and liabilities measured at fair value on a recurring basis for the six months ended June 30, 2026:

	Assets		Liabilities		
	Agricultural Mortgage-Backed Securities		Letters of Credit		Total
Balance at December 31, 2025	\$ 4,609		\$ 2,537		\$ 2,072
Net gains included in other comprehensive income	63		—		63
Settlements	(548)		(373)		(175)
Balance at June 30, 2026	\$ 4,124		\$ 2,164		\$ 1,960
The amount of gains/losses for the period included in other comprehensive income attributable to the change in unrealized gains or losses relating to assets or liabilities still held at June 30, 2026					
	\$ 63		\$ —		\$ 63

AMBS were included in Level 3 due to limited activity or less transparency around inputs to their valuation. The liability for letters of credit was included in Level 3 because the valuation, based on fees charged for similar agreements, may not closely correlate to a fair value for instruments not regularly traded in the secondary market.

Assets and liabilities measured at fair value on a nonrecurring basis at June 30, 2026, for each of the fair value hierarchy levels are summarized below:

	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Assets:				
Loans	\$ 1,715	\$ —	\$ —	\$ 1,715
Other property owned	23,188	—	—	23,188
Total assets	\$ 24,903	\$ —	\$ —	\$ 24,903

Assets and liabilities measured at fair value on a recurring basis at December 31, 2025, for each of the fair value hierarchy levels are summarized below:

	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Assets:				
Federal funds sold and other overnight funds	\$ 461,098	\$ —	\$ 461,098	\$ —
Available-for-sale investments				
Certificates of deposit	350,188	—	350,188	—
Corporate debt	30,229	—	30,229	—
Mortgage-backed securities	5,351,939	—	5,351,939	—
U.S. Treasury securities	922,833	—	922,833	—
Asset-backed securities	233,870	—	233,870	—
Agricultural mortgage-backed securities	4,609	—	—	4,609
Derivative assets	2,464	—	2,464	—
Assets held in nonqualified benefit trusts	3,082	3,082	—	—
Total assets	\$ 7,360,312	\$ 3,082	\$ 7,352,621	\$ 4,609
Liabilities:				
Derivative liabilities	\$ 1,415	\$ —	\$ 1,415	\$ —
Letters of credit	2,537	—	—	2,537
Total liabilities	\$ 3,952	\$ —	\$ 1,415	\$ 2,537

The table below represents a reconciliation of Level 3 assets and liabilities measured at fair value on a recurring basis for the three months ended June 30, 2025:

	Assets			Liabilities		
	Certificates of Deposit	Agricultural Mortgage-Backed Securities	Loans Held for Sale	Letters of Credit	Total	
Balance at March 31, 2025	\$ —	\$ 5,969	\$ 7,776	\$ 2,841	\$ 10,904	
Net gains (losses) included in other comprehensive income	(16)	57	—	—	41	
Settlements	—	(252)	—	(386)	134	
Purchases	50,000	—	—	—	50,000	
Sales	—	—	(7,776)	—	(7,776)	
Balance at June 30, 2025	\$ 49,984	\$ 5,774	\$ —	\$ 2,455	\$ 53,303	
The amount of gains/losses for the period included in other comprehensive income attributable to the change in unrealized gains or losses relating to assets or liabilities still held at June 30, 2025						
	\$ (16)	\$ 57	\$ —	\$ —	\$ 41	

The table below represents a reconciliation of Level 3 assets and liabilities measured at fair value on a recurring basis for the six months ended June 30, 2025:

	Assets			Liabilities	
	Certificates of Deposit	Agricultural Mortgage-Backed Securities	Loans Held for Sale	Letters of Credit	Total
Balance at December 31, 2024	\$ —	\$ 6,553	\$ 7,981	\$ 3,563	\$ 10,971
Net gains (losses) included in other comprehensive income	(16)	118	—	—	102
Settlements	—	(897)	—	(1,108)	211
Purchases	50,000	—	—	—	50,000
Sales	—	—	(7,981)	—	(7,981)
Balance at June 30, 2025	<u>\$ 49,984</u>	<u>\$ 5,774</u>	<u>\$ —</u>	<u>\$ 2,455</u>	<u>\$ 53,303</u>
The amount of gains/losses for the period included in other comprehensive income attributable to the change in unrealized gains or losses relating to assets or liabilities still held at June 30, 2025	\$ (16)	\$ 118	\$ —	\$ —	\$ 102

Certificates of deposit were included in Level 3 due to their valuation being based on Level 3 criteria (broker quotes). Loans held for sale were also included in Level 3 due to their valuation being based on Level 3 criteria (broker quotes) prior to the completion of the sale in the second quarter of 2025. AMBS were included in Level 3 due to limited activity or less transparency around inputs to their valuation. The liability for letters of credit was included in Level 3 because the valuation, based on fees charged for similar agreements, may not closely correlate to a fair value for instruments not regularly traded in the secondary market.

Assets and liabilities measured at fair value on a nonrecurring basis at December 31, 2025, for each of the fair value hierarchy levels are summarized below:

	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Assets:				
Loans	\$ 22,266	\$ —	\$ —	\$ 22,266
Other property owned	28,583	—	—	28,583
Total assets	<u>\$ 50,849</u>	<u>\$ —</u>	<u>\$ —</u>	<u>\$ 50,849</u>

The fair value of financial instruments measured at carrying amounts on the Balance Sheet for each of the fair value hierarchy values are summarized as follows:

	June 30, 2026				
	Total Carrying Amount	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total Fair Value

Valuation Techniques

As more fully discussed in Note 2, “Summary of Significant Accounting Policies” in the 2025 Annual Report, authoritative accounting guidance establishes a fair value hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. Fair values of financial instruments represent the estimated amount to be received to sell an asset or paid to transfer or extinguish a liability among willing participants at the reporting date. Due to the uncertainty of expected cash flows resulting from financial instruments, the use of different assumptions and valuation methodologies could significantly affect the estimated fair value amounts. Accordingly, certain estimated fair values may not be indicative of the amounts for which the financial instruments could be exchanged in a current or future market transaction.

Uncertainty of Fair Value Measurements

For recurring fair value measurements categorized within Level 3 of the fair value hierarchy, the significant unobservable input used in the fair value measurement of the AMBS are prepayment rates.

Quoted market prices may not be available for the instruments presented below. Accordingly, fair values are based on internal models that consider judgments regarding anticipated cash flows, future expected loss experience, current economic conditions, risk characteristics of various financial instruments and other factors. Significant increases (decreases) in any of those inputs in isolation would have resulted in a significantly lower (higher) fair value measurement. Generally, a change in the assumption used for the probability of default would have been accompanied by a directionally similar change in the assumption used for the loss given default and a directionally opposite change in the assumption used for prepayment rates. These estimates involve uncertainties and matters of judgment, and, therefore, cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

Information About Recurring and Nonrecurring Level 3 Fair Value Measurements

	Fair Value at		Valuation Technique(s)	Unobservable Input	Range of Inputs / Weighted Average of Inputs	
	June 30, 2026	December 31, 2025			June 30, 2026	December 31, 2025
Agricultural mortgage-backed securities	\$ 4,124	\$ 4,609	Discounted cash flow	Prepayment rates	3.96% - 44.72% / 14.83%	3.78% - 33.69% / 11.28%

In regard to nonperforming loans and other property owned (OPO), it is not practicable to provide specific information on inputs as each collateral property is unique. The Bank utilizes appraisals to value these loans and OPO and considers unobservable inputs such as income and expense, comparable sales, replacement cost and comparability adjustments.

Information about Recurring and Nonrecurring Level 2 Fair Value Measurements

	Valuation Technique(s)	Input
Federal funds sold	Carrying value	Par/principal
Available-for-sale investment securities	Quoted prices	Price for similar security
	Discounted cash flow	Constant prepayment rate
		Appropriate interest rate yield curve
Interest rate caps	Discounted cash flow	Appropriate interest rate yield curve
Interest rate swaps	Discounted cash flow	Annualized volatility
		Benchmark yield curve
		Counterparty credit risk
		Volatility

Information about Other Financial Instrument Fair Value Measurements

	Valuation Technique(s)	Input
Cash	Carrying value	Actual balance
Loans	Discounted cash flow	Prepayment forecasts
		Appropriate interest rate yield curve
		Probability of default
		Loss given default
		Benchmark yield curve
Systemwide debt securities	Discounted cash flow	Derived yield spread
		Own credit risk

NOTE 7 — ASSET/LIABILITY OFFSETTING

Most derivative transactions with swap dealers are cleared through a Futures Commission Merchant (FCM). Cleared derivative contracts require the payment of initial and variation margin as a protection against default and the Derivatives Clearing Organization (DCO) takes on the obligation of both sides of the transaction. The Bank's interest rate cap derivatives are under bilateral collateral and netting agreements that require the net settlement of covered contracts.

Notwithstanding collateral and netting provisions, our derivative assets and liabilities are not offset on the accompanying Balance Sheet. The amount of collateral received or pledged is calculated on a net basis by counterparty.

The following table summarizes overnight investments, derivative assets and liabilities and amounts of collateral exchanged pursuant to our agreements:

		Amounts Not Offset on the Balance Sheet			
	Gross Amounts of Assets/Liabilities Presented on the Balance Sheet	Cash Collateral Posted - Initial Margin	Investment Securities Received/Pledged as Collateral		Net Amount
June 30, 2026					
Assets:					
Interest rate swaps and other derivatives	\$ 5,431	\$ 47,160	\$ —	\$	52,591
Federal funds sold and overnight investments	526,081	—	(120,000)		406,081
Liabilities:					
Interest rate swaps and other derivatives	—	—	—		—
		Amounts Not Offset on the Balance Sheet			
	Gross Amounts of Assets/Liabilities Presented on the Balance Sheet	Cash Collateral Posted - Initial Margin	Investment Securities Received/ Pledged as Collateral		Net Amount
December 31, 2025					
Assets:					
Interest rate swaps and other derivatives	\$ 2,464	\$ 37,435	\$ —	\$	39,899
Federal funds sold and overnight investments	461,098	—	(100,000)		361,098
Liabilities:					
Interest rate swaps and other derivatives	1,415	—	—		1,415

NOTE 8 — DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES

The Bank maintains an overall interest rate risk management strategy that incorporates the use of derivative instruments to minimize significant unplanned fluctuations in earnings that are caused by interest rate volatility. The Bank's goal is to manage interest rate sensitivity by modifying the repricing or maturity characteristics of certain Balance Sheet liabilities so that movements in interest rates do not adversely affect the net interest margin. The Bank considers the strategic use of derivatives to be a prudent method of managing interest rate sensitivity as it prevents earnings from being exposed to undue risk posed by changes in interest rates.

The Bank may enter into derivative transactions to lower funding costs, diversify sources of funding, alter interest rate exposures arising from mismatches between assets and liabilities, or better manage liquidity. Interest rate swaps allow the Bank to raise borrowings in the government-sponsored enterprises market and modify the repricing characteristics of that debt to better match those of the earning assets. Under interest rate swap arrangements, the Bank agrees with other parties to exchange, at specified intervals, payment streams calculated on a specified notional amount, with at least one stream based on a specified floating-rate index. The Bank may purchase interest rate options, such as caps and floors, in order to reduce the impact of rising interest rates on its floating-rate debt.

At June 30, 2026, the Bank held interest rate caps with a notional amount of \$75.0 million and a net fair value asset of \$2 thousand, and pay-fixed interest rate swaps with a notional amount of \$2.30 billion and a net fair value asset of \$57.2 million. At June 30, 2026, the Bank had received \$51.7 million in variation margin settlements from a counterparty on the pay-fixed interest rate swaps. At December 31, 2025, the Bank held interest rate caps with a notional amount of \$75.0 million and a net fair value asset of \$4 thousand, and pay-fixed interest rate swaps with a notional amount of \$1.825 billion and a net fair value asset of \$24.5 million. At December 31, 2025, the Bank had

received \$23.5 million in variation margin settlements from a counterparty on the pay-fixed interest rate swaps.

The primary type of derivative instruments used and the activity (notional amount of derivatives) during the six months ended June 30, 2026, are summarized in the following table.

	Pay-Fixed Swaps	Interest Rate Caps	Total
Balance at December 31, 2025	\$ 1,825,000	\$ 75,000	\$ 1,900,000
Additions	475,000	—	475,000
Balance at June 30, 2026	<u>\$ 2,300,000</u>	<u>\$ 75,000</u>	<u>\$ 2,375,000</u>

By using derivative instruments, the Bank exposes itself to credit and market risk. If a counterparty fails to fulfill its performance obligations under a derivative contract, the Bank's credit risk will equal the fair value gain of the derivative. Generally, when the fair value of a derivative contract is positive, this indicates that the counterparty owes the Bank, thus creating a repayment risk for the Bank. When the fair value of the derivative contract is negative, the Bank owes the counterparty and, therefore, assumes no repayment risk.

To minimize the risk of credit losses from derivatives, all interest rate swap derivative contracts have been moved to clearing and are cleared through an FCM. Cleared derivative contracts require the payment of initial and variation margin as a protection against default and the DCO takes on the obligation of both sides of the transaction. Interest rate cap derivatives are supported by bilateral collateral agreements with counterparties requiring the posting of collateral in the event certain dollar thresholds of exposure of one party to the other are reached; thresholds may vary depending on the counterparty's credit rating from a major rating agency. The Bank also monitors the credit standing of, and levels of exposure to, individual counterparties. Interest rate caps are under master agreements that contain netting provisions. These provisions allow the Bank to require the net settlement of covered contracts with the same counterparty in the event of default by the counterparty on one or more contracts. At June 30, 2026, the Bank had posted \$47.2 million of cash as collateral as initial margin, compared to \$37.4 million at December 31, 2025. At June 30, 2026, the Bank had a derivative asset value of \$57.2 million and had received \$51.7 million in variation margin settlements. At December 31, 2025, the Bank had a derivative asset value of \$25.9 million and had received \$23.5 million in variation margin settlements.

The credit exposure represents the exposure to credit loss on derivative instruments, which is estimated by calculating the cost, on a present value basis, to replace all outstanding derivative contracts in a gain position.

Derivative – Counterparty Exposure

The following table represents the credit ratings of counterparties to whom the Bank had credit exposure at June 30, 2026:

	Remaining Years to Maturity			Exposure	Collateral Held**	Exposure Net of Collateral
	Less Than One Year to Five Years	More Than Five Years	Total Gains (Losses)*			
Moody's Credit Rating:						
Aa2	\$ 2	\$ —	\$ 2	\$ 2	\$ —	\$ 2
Aa3	3,407	3,563	6,970	6,970	—	6,970
Total	\$ 3,409	\$ 3,563	\$ 6,972	\$ 6,972	\$ —	\$ 6,972

*Represents gain or loss positions on derivative instruments with individual counterparties. Net gains or losses represent the exposure to credit losses estimated by calculating the cost, on a present value basis, to replace all outstanding derivative contracts within a maturity category. Within each maturity category, contracts in a loss position are netted against contracts in a gain position with the same counterparty.

**Excluded from the table is initial margin posted by the Bank totaling \$47.2 million at June 30, 2026, related to cleared derivative transactions.

The Bank's derivative activities are monitored by the Asset-Liability Management Committee (ALCO) as part of its asset/liability and treasury functions. The ALCO is responsible for approving hedging strategies that are developed through its analysis of data derived from financial simulation models and other internal and industry sources. The resulting hedging strategies are then incorporated into the Bank's overall interest rate risk management strategies.

Fair Value Hedges

At June 30, 2026, and December 31, 2025, the Bank did not have any fair value hedged items. Derivative instruments that would be designated and qualify as a fair value hedge, the gain or loss on the derivative as well as the offsetting loss or gain on the hedged item attributable to the hedge risk would be recognized in current earnings. The gain or loss on the hedged items would be included in the same line item as the offsetting loss or gain on the related receive-fixed interest rate swaps.

Cash Flow Hedges

For derivative instruments that are designated and qualify as cash flow hedges, the effective portion of the gain or loss on the derivative is reported as a component of other comprehensive income and reclassified into earnings in the same period or periods during which the hedged transaction affects earnings. Gains and losses on the derivative representing either hedge ineffectiveness or hedge components excluded from the assessment of effectiveness are recognized in current earnings.

The Bank clears all cash flow swap hedges through an FCM, with a clearinghouse or central counterparty (CCP). At June 30, 2026, the Bank had a notional amount of cleared cash flow hedges of \$2.30 billion with associated initial margin of \$47.2 million. At December 31, 2025, the notional amount of cleared cash flow hedges was \$1.825 billion with associated initial margin of \$37.4 million.

The Bank's derivative instruments at June 30, 2026, and December 31, 2025, which are designated and qualify as cash flow hedges, met the standards for accounting treatment. Thus, the effective portion of the gain or loss on the derivative was reported as a component of other comprehensive income. In the next 12 months, we expect to reclassify \$134 thousand of losses recorded in accumulated other comprehensive loss (AOCL) as of June 30, 2026 to earnings. These amounts will offset the cash flows associated with the hedged forecasted transactions. For cash flow hedges with any ineffectiveness, the ineffectiveness is recognized as interest expense into current period

earnings. During the three and six months ended June 30, 2026, there was ineffectiveness for cash flow hedges of \$5 thousand. During the three and six months ended June 30, 2025, there was no ineffectiveness for cash flow hedges.

The following table represents the fair value of cash flow derivative instruments, inclusive of posted or received variation margin settlements for cleared pay-fixed swap activity as of June 30, 2026, and December 31, 2025:

	Balance Sheet Location	Fair Value at		Balance Sheet Location	Fair Value at	
		June 30, 2026	December 31, 2025		June 30, 2026	December 31, 2025
Interest rate caps	Other assets	\$ 2	\$ 4	Other liabilities	\$ —	\$ —
Pay-fixed swaps	Other assets	5,429	2,460	Other liabilities	—	1,415
		<u>\$ 5,431</u>	<u>\$ 2,464</u>		<u>\$ —</u>	<u>\$ 1,415</u>

The following table sets forth the effect of derivative (loss) gain recognized in AOCL for the six months ended June 30, 2026 and June 30, 2025:

Gain (Loss) Recognized in AOCL on Derivatives				Gain (Loss) Reclassified from AOCL into Income			
Six Months Ended June 30,				Six Months Ended June 30,			
2026		2025		2026		2025	
Interest rate caps	\$ (2)	\$ (91)	Interest expense	\$ (71)	\$ (99)		
Pay-fixed swaps	32,643	(36,094)	Other income, net	—	—		
	<u>\$ 32,641</u>	<u>\$ (36,185)</u>		<u>\$ (71)</u>	<u>\$ (99)</u>		

NOTE 9 — CAPITAL

The FCA sets minimum regulatory capital requirements, including capital conservation buffers, for banks and associations. These requirements are split into minimum requirements for risk-adjusted ratios and non-risk-adjusted ratios. The risk-adjusted ratios include common equity tier 1, tier 1 capital, total capital and permanent capital ratios. The non-risk-adjusted ratios include tier 1 leverage and unallocated retained earnings (URE) and URE equivalents (UREE) leverage ratios that are applicable to both the banks and associations. As of June 30, 2026, the Bank exceeded all regulatory capital requirements, including the capital conservation buffers.

The following table reflects the Bank's capital ratios:

	Regulatory Requirements Including Capital Conservation Buffers	As of June 30, 2026	As of December 31, 2025
Risk-adjusted:			
Common equity tier 1 ratio	7.00 %	9.35 %	9.08 %
Tier 1 capital ratio	8.50	13.55	13.25
Total capital ratio	10.50	13.89	13.59
Permanent capital ratio	7.00	13.59	13.29
Non-risk-adjusted:			
Tier 1 leverage ratio	5.00 %	5.79 %	5.70 %
UREE leverage ratio	1.50	2.04	2.03

Risk-adjusted assets have been defined by FCA regulations as the Balance Sheet assets and off-balance sheet commitments adjusted by various percentages ranging from 0 to 1,250, depending on the level of risk inherent in the various types of assets.

If the capital ratios fall below the minimum regulatory requirements, capital distributions (equity redemptions, dividends and patronage) and discretionary bonus payments to senior officers are restricted or prohibited without prior FCA approval.

The components of the Bank's risk-adjusted capital, based on 90-day average balances, were as follows at June 30, 2026:

	Common Equity Tier 1 Ratio	Tier 1 Capital Ratio	Total Capital Ratio	Permanent Capital Ratio
Numerator:				
Unallocated retained earnings	\$ 993,692	\$ 993,692	\$ 993,692	\$ 993,692
Adjustments for patronage or dividend accrued receivables and payables	436	436	436	436
Common Cooperative Equities:				
Purchased other required stock ≥ 7 years	668,264	668,264	668,264	668,264
Allocated stock ≥ 7 years	36,042	36,042	36,042	36,042
Allocated equities:				
Allocated equities held ≥ 7 years	116,454	116,454	116,454	116,454
Noncumulative perpetual preferred stock	—	750,000	750,000	750,000
Allowance for credit losses on loans and allowance for credit losses on unfunded commitments subject to certain limitations	—	—	60,785	—
Regulatory Adjustments and Deductions:				
Amount of allocated investments in other System institutions	(142,629)	(142,629)	(142,629)	(142,629)
Other regulatory required deductions	(98)	(98)	(98)	(98)
Total	<u>\$ 1,672,161</u>	<u>\$ 2,422,161</u>	<u>\$ 2,482,946</u>	<u>\$ 2,422,161</u>
Denominator:				
Risk-adjusted assets excluding allowance	\$ 17,876,550	\$ 17,876,550	\$ 17,876,550	\$ 17,876,550
Regulatory Adjustments and Deductions:				
Allowance for credit losses on loans	—	—	—	(53,675)
Total	<u>\$ 17,876,550</u>	<u>\$ 17,876,550</u>	<u>\$ 17,876,550</u>	<u>\$ 17,822,875</u>

The components of the Bank's non-risk-adjusted capital, based on 90-day average balances, were as follows at June 30, 2026:

	Tier 1 Leverage Ratio	UREE Leverage Ratio
Numerator:		
Unallocated retained earnings	\$ 993,692	\$ 993,692
Adjustments for patronage or dividend accrued receivables and payables	436	436
Common Cooperative Equities:		
Purchased other required stock ≥ 7 years	668,264	—
Allocated stock ≥ 7 years	36,042	—
Allocated equities:		
Allocated equities held ≥ 7 years	116,454	—
Noncumulative perpetual preferred stock	750,000	—
Regulatory Adjustments and Deductions:		
Amount of allocated investments in other System institutions	(142,629)	(142,629)
Other regulatory required deductions	(98)	(98)
Total	<u>\$ 2,422,161</u>	<u>\$ 851,401</u>
Denominator:		
Total assets	\$ 41,973,123	\$ 41,973,123
Regulatory Adjustments and Deductions:		
Regulatory deductions included in tier 1 capital	(148,961)	(148,961)
Total	<u>\$ 41,824,162</u>	<u>\$ 41,824,162</u>

The components of the Bank's risk-adjusted capital, based on 90-day average balances, were as follows at December 31, 2025:

	Common Equity Tier 1 Ratio	Tier 1 Capital Ratio	Total Capital Ratio	Permanent Capital Ratio
Numerator:				
Unallocated retained earnings	\$ 992,788	\$ 992,788	\$ 992,788	\$ 992,788
Adjustments for patronage or dividend accrued receivables and payables	(4,919)	(4,919)	(4,919)	(4,919)
Common Cooperative Equities:				
Purchased other required stock ≥ 7 years	640,569	640,569	640,569	640,569
Allocated stock ≥ 7 years	36,042	36,042	36,042	36,042
Allocated equities:				
Allocated equities held ≥ 7 years	109,037	109,037	109,037	109,037
Noncumulative perpetual preferred stock	—	750,000	750,000	750,000
Allowance for credit losses on loans and allowance for credit losses on unfunded commitments subject to certain limitations	—	—	62,489	—
Regulatory Adjustments and Deductions:				
Amount of allocated investments in other System institutions	(139,170)	(139,170)	(139,170)	(139,170)
Other regulatory required deductions	(115)	(115)	(115)	(115)
Total	<u>\$ 1,634,232</u>	<u>\$ 2,384,232</u>	<u>\$ 2,446,721</u>	<u>\$ 2,384,232</u>
Denominator:				
Risk-adjusted assets excluding allowance	\$ 17,997,675	\$ 17,997,675	\$ 17,997,675	\$ 17,997,675
Regulatory Adjustments and Deductions:

Other regulatory required deductions	(115)	(115)
Total	<u>\$ 2,384,232</u>	<u>\$ 848,584</u>
Denominator:		
Total assets	\$ 42,009,628	\$ 42,009,628
Regulatory Adjustments and Deductions:		
Regulatory deductions included in tier 1 capital	(150,654)	(150,654)
Total	<u>\$ 41,858,974</u>	<u>\$ 41,858,974</u>

NOTE 10 — EMPLOYEE BENEFIT PLANS

In addition to pension benefits, the Bank provides certain health care benefits to qualifying retired employees (other postretirement benefits). These benefits are not characterized as multiemployer, and consequently, the liability for these benefits is included in other liabilities on the Balance Sheet. Bank employees hired after January 1, 2004, may be eligible for retiree medical benefits for themselves and their spouses at their expense and will be responsible for 100 percent of the related premiums. The following table summarizes the components of net periodic benefit costs for the Bank's other postretirement benefit costs for the six months ended June 30, 2026 and June 30, 2025:

	2026	2025
Service cost	\$ 42	\$ 53
Interest cost	281	284
Amortization of:		
Net actuarial gains	(73)	—
Total	<u>\$ 250</u>	<u>\$ 337</u>

The components of net periodic benefit cost other than the service cost component are included in other components of net periodic postretirement benefit cost on the Statements of Comprehensive Income.

The structure of the Texas District's defined benefit pension plan is characterized as multiemployer, since neither the assets, liabilities nor cost of any plan is segregated or separately accounted for by participating employers (Bank and District Associations).

NOTE 11 — ACCUMULATED OTHER COMPREHENSIVE LOSS

AOCL includes the accumulated balance of certain gains, losses or costs for which values are included in assets or liabilities on the Balance Sheet, but which have not yet been recognized in earnings. For the Bank, these elements include unrealized gains or losses on the Bank's AFS investment portfolio, amortization of postretirement benefit elements and changes in the value of cash flow derivative instruments.

The following is a summary of the components of AOCL and the changes that occurred during the six months ended June 30, 2026:

	Total	Investments	Postretirement Benefit Plans	Cash Flow Derivative Instruments
Balance at December 31, 2025	\$ (363,855)	\$ (390,016)	\$ 1,851	\$ 24,310
Change in net unrealized losses on AFS securities:				
Net change in unrealized losses on AFS securities	(33,607)	(33,607)		
Net change in unrealized losses on AFS securities	(33,607)	(33,607)		
Change in postretirement benefit plans:				
Amounts amortized into net periodic expense:				
Amortization of actuarial gains	(73)		(73)	
Net change in postretirement benefit plans	(73)		(73)	
Change in cash flow derivative instruments:				
Net change in unrealized gains on cash flow derivative instruments	32,641			32,641
Reclassification of loss recognized in interest expense	71			71
Net change in cash flow derivative instruments	32,712			32,712
Total other comprehensive income (loss)	(968)	(33,607)	(73)	32,712
Balance at June 30, 2026	\$ (364,823)	\$ (423,623)	\$ 1,778	\$ 57,022

The following is a summary of the components of AOCL and the changes that occurred during the six months ended June 30, 2025:

	Total	Investments	Postretirement Benefit Plans	Cash Flow Derivative Instruments
Balance at December 31, 2024	\$ (466,147)	\$ (532,253)	\$ 1,019	\$ 65,087
Change in net unrealized losses on AFS securities:				
Net change in unrealized losses on AFS securities	90,177	90,177		
Net change in unrealized losses on AFS securities	90,177	90,177		
Change in cash flow derivative instruments:				
Net change in unrealized gains on cash flow derivative instruments	(36,185)			(36,185)
Reclassification of loss recognized in interest expense	99			99
Net change in cash flow derivative instruments	(36,086)			(36,086)
Total other comprehensive income (loss)	54,091	90,177	—	(36,086)
Balance at June 30, 2025	\$ (412,056)	\$ (442,076)	\$ 1,019	\$ 29,001

The following table summarizes reclassifications out of accumulated other comprehensive (loss) income to current earnings for the six months ended June 30, 2026 and June 30, 2025:

Description	Amount Reclassified from AOCL		Location of Gain or Loss Recognized on the Statements of Comprehensive Income
	2026	2025	
Amortization of net credits on postretirement benefit plan	\$ (73)	\$ —	Salaries and employee benefits
Amortization of cash flow hedges	71	99	Interest expense
Total	<u>\$ (2)</u>	<u>\$ 99</u>	

NOTE 12 — SEGMENT REPORTING

The Bank's operations fall under one reportable segment. As per regulation and as discussed in Note 1, "Organization and Operations" in the 2025 Annual Report, our business activities are primarily focused on providing financial services and credit to borrowers in the farming, ranching, agribusiness and rural community sectors. The Bank provides funding either by directly financing the eligible borrowers through affiliated District Associations or indirectly financing through the purchase of participation loans in collaboration with District Associations, other Farm Credit entities and financial institutions. The Bank also provides other services to its affiliated District Associations in credit, accounting, technology, compliance, risk management, human resources and other areas.

The Bank's major customer includes a District Association with revenue in excess of 10 percent of the Bank's total revenue, which includes interest income and noninterest income. For the three and six months ended June 30, 2026, the Bank's revenue included \$97.1 million and \$195.5 million, respectively, from this District Association. For the three and six months ended June 30, 2025, the Bank's revenue included \$94.6 million and \$185.4 million, respectively, from this District Association.

The accounting policies for this segment are the same as those discussed in Note 2, "Summary of Significant Policies" in the 2025 Annual Report. The Bank's chief operating decision maker (CODM) is its chief executive officer who uses net income, as presented on the Statements of Comprehensive Income, as the reportable measure of segment profit or loss, to monitor actual versus plan results and benchmarking the Bank's performance with peers. The benchmarking analysis along with the monitoring of actual versus plan results are used in assessing the performance of the Bank and in establishing recommendations on management's compensation. The measure of segment assets is reported on the Balance Sheet as total assets. There is no separate segment financial information as the Bank only has one segment.

NOTE 13 — SUBSEQUENT EVENTS

The Bank has evaluated subsequent events through August 7, 2026, which is the date the financial statements were issued. There are no subsequent events requiring disclosure as of August 7, 2026.

NOTE 14 — COMBINED DISTRICTWIDE FINANCIAL STATEMENTS

The accompanying financial statements relate solely to the Bank and exclude financial information of the District Associations. The Bank separately publishes certain unaudited combined financial information of the Texas District, including the Combined Balance Sheets and Combined Statements of Income, which can be found on the Bank's website at www.farmcreditbank.com.

Additional Regulatory Information

(Unaudited, dollar amounts in thousands, except as otherwise noted)

Disclosure Map

The following table summarizes the interim disclosure requirements and indicates where each matter is disclosed in this quarterly report.

Disclosure Requirement	Description	June 30, 2026 Quarterly Report Reference
Scope of Application	Corporate entity and structure	Page 55
Capital Structure	Regulatory capital components	Page 56
Capital Adequacy	Risk-weighted assets	Page 57
	Regulatory capital ratios	Page 57
Capital Buffers	Quantitative disclosures	Page 57
Credit Risk	Summary of exposures	Page 58
	Industry distribution	Page 58
	Contractual maturity	Page 59
	Geographic distribution	Page 59
	Nonperforming loans	Note 3 on Page 33
	Allowance for credit losses on loans	Note 3 on Pages 36-38

Credit Risk Mitigation	Exposures with reduced capital requirements	Page 60
Securitization	Securitization exposures	Page 60
Equities	General description	Page 60
Interest Rate Risk for Nontrading Activities	Interest rate sensitivity	Page 61

SCOPE OF APPLICATION

The following disclosures contain regulatory disclosures as required under FCA Regulation §628.63 for risk-adjusted ratios: common equity tier 1, tier 1 capital and total capital. Refer to Note 9 of the accompanying financial statements for information regarding the statutorily required permanent capital ratio. As required, these disclosures are made available for at least three years and can be accessed at Farm Credit Bank of Texas' website at www.farmcreditbank.com. FCA Regulation §628.62(a) requires each System bank to provide timely public disclosures at the end of each calendar quarter. Qualitative disclosures that typically do not change each quarter may be disclosed annually after the end of the fourth quarter, provided that any significant changes are disclosed in the interim.

The disclosures herein relate solely to the Bank and exclude financial information of the District Associations. The Bank has no subsidiaries; therefore, the financial statements are only those of the Bank and are not consolidated with any other entity.

CAPITAL STRUCTURE

The following table provides a summary of the Bank's capital structure at June 30, 2026:

	Three-Month Average Daily Balance
Common equity tier 1 capital (CET1):	
Common cooperative equities:	
Purchased other required stock ≥ 7 years	\$ 668,264
Allocated stock ≥ 7 years	36,042
Allocated equities:	
Qualified allocated equities subject to retirement	116,454
Nonqualified allocated equities subject to retirement	—
Nonqualified allocated equities not subject to retirement	—
Unallocated retained earnings	993,692
Adjustments for patronage or dividend accrued receivables and payables	436
Paid-in capital	—
Regulatory adjustments and deductions made to CET1	(142,727)
Total CET1 capital	<u>\$ 1,672,161</u>
Additional tier 1 capital (AT1):	
Noncumulative perpetual preferred stock	\$ 750,000
Regulatory adjustments and deductions made to AT1 capital	—
Total AT1 capital	<u>750,000</u>
Total tier 1 capital	<u>\$ 2,422,161</u>
Tier 2 capital (T2):	
Common cooperative equities not included in CET1	\$ —
T2 capital elements (allowance for credit losses on loans)	60,785
Regulatory adjustments and deductions made to T2 capital	—
Total T2 Capital	<u>60,785</u>
Total capital	<u>\$ 2,482,946</u>

Capital Adequacy and Capital Buffers

The Bank's risk-adjusted regulatory capital ratios are calculated by dividing the relevant total capital elements by risk-weighted assets. The following table provides the Bank's risk-weighted assets at June 30, 2026:

	Three-Month Average Daily Balance
On-Balance Sheet Assets:	
Exposures to sovereign entities	\$ —
Exposures to supranational entities and Multilateral Development Banks	—
Exposures to government-sponsored entities (direct notes to District Associations)	4,923,152
Exposures to depository institutions, foreign banks and credit unions	2,874
Exposures to public sector entities	—
Corporate exposures, including borrower loans and exposures to other financing institutions	9,491,528
High Volatility Commercial Real Estate exposures	13,628
Residential mortgage exposures	—
Past due and nonaccrual exposures	78,816
Securitization exposures	80,116
Exposures to other assets	596,052
Total Risk-Weighted Assets, On-Balance Sheet Assets	<u>\$ 15,186,166</u>
Off-Balance Sheet Assets:	
Letters of Credit	\$ 172,390
Commitments	2,472,900
High Volatility Commercial Real Estate exposures	30,167
Repo-styled transactions	507
Over-the-counter derivatives	13,735
Unsettled transactions	—
Cleared transactions	—
All other off-Balance Sheet exposures	685
Total Risk-Weighted Assets, Off-Balance Sheet Assets	<u>2,690,384</u>
Total Risk-Weighted Assets Before Adjustments	<u>\$ 17,876,550</u>
Additions:	
Intra-system equity investments	\$ 142,727
Deductions:	
Regulatory capital deductions	(142,727)
Total Standardized Risk-Weighted Assets	<u>\$ 17,876,550</u>

Capital and Leverage Ratios

As of June 30, 2026, the Bank was well-capitalized and exceeded all capital requirements. The Bank currently has no limitations on its distributions and discretionary bonus payments as the capital and leverage ratios exceeded the minimum regulatory requirements of 8.00 percent and 4.00 percent, respectively.

	Regulatory Minimums	Capital Conservation Buffers	Ratios as of June 30, 2026	Calculated Buffers
Common equity tier 1 capital ratio	4.50 %	2.50 %	9.35 %	4.85 %
Tier 1 capital ratio	6.00	2.50	13.55	7.55
Total capital ratio	8.00	2.50	13.89	5.89
Tier 1 leverage ratio	4.00	1.00	5.79	1.79

CREDIT RISK

System entities have specific lending authorities within their chartered territories. The Bank is chartered to serve its District Associations in Alabama, Mississippi, New Mexico, Louisiana and Texas. Our chartered territory is referred to as the Texas District. The Bank serves its chartered territory by lending to the Federal Land Credit Association (FLCA) and Agricultural Credit Associations (ACAs). The allowance for credit losses on loans (ACLL) is estimated using a probability of default (PD) and loss given default (LGD) model where impairment is calculated by multiplying the PD (probability the loan will default in a given timeframe) by the LGD (percentage of the loan expected to be collected at default.) Allowance needs by geographic region are only considered in circumstances that may not otherwise be reflected in the PD and LGD, such as flooding or drought. There was no allowance attributed to a geographic area as of June 30, 2026.

Refer to the Risk-Adjusted Asset table below for the Bank's total and average loans, investment securities, off-balance sheet commitments and over-the-counter (OTC) derivatives. The following table illustrates the Bank's total exposure (including commitments) by loan type as of June 30, 2026.

	Total Exposure
Direct notes receivable from District Associations	\$ 30,219,236
Real estate mortgage	1,374,187
Production and intermediate-term	1,985,559
Agribusiness	
Loans to cooperatives	1,379,831
Processing and marketing	4,642,418
Farm-related business	520,999
Communications	1,027,988
Energy (rural utilities)	2,881,605
Water and waste disposal	305,364
Mission-related	1,773
Rural home	775
International	222,611
Leases	3,032
Loans to other financing institutions	95,000
Total	<u>\$ 44,660,378</u>

The following table provides an overview of the remaining contractual maturity of the Bank's credit risk portfolio categorized by exposure at June 30, 2026. The remaining contractual maturity for the Bank's direct notes from the District Associations is included in the loans line item based on the contractual terms of the underlying association retail loans. Unfunded commitments for direct notes from District Associations reflects the aggregate remaining amount that the District Associations can borrow from the Bank and is included in the unfunded commitments line item within the due in one year or less column.

	Due in one year or less	Due after one year through five years	Due after five years	Total
Loans	\$ 6,797,896	\$ 9,841,802	\$ 17,268,057	\$ 33,907,755
Off-Balance Sheet commitments:				
Financial letters of credit	106,802	98,355	—	205,157
Performance letters of credit	5,968	6,891	—	12,859
Commercial letters of credit	3,178	2,759	—	5,937
Unfunded commitments	7,234,606	3,088,400	205,664	10,528,670
Equity investment commitments	2,880	—	—	2,880
Investments	711,483	1,806,339	4,239,461	6,757,283
Derivatives (notional)	125,000	1,475,000	775,000	2,375,000
Total	\$ 14,987,813	\$ 16,319,546	\$ 22,488,182	\$ 53,795,541

The following table illustrates the Bank's total exposure (including commitments) by geographic distribution as of June 30, 2026:

State*	Percentage
Texas	60 %
Mississippi	7
Alabama	7
Louisiana	4
California	2
All other states	20
Total	100 %

*The geographic distribution is based on the state in which the borrower is headquartered and may not be representative of their operations or business activities.

Refer to Note 3 of the accompanying financial statements for amounts of loans in nonaccrual status and greater than 90 days past due and still accruing, nonaccrual loans with or without a related allowance for credit losses, the allowance at the end of each reporting period, charge-offs during the period, and changes in components of our allowance for credit losses.

Counterparty Credit Risk and Credit Risk Mitigation

The table below shows the notional value of derivatives, segregated by interest rate caps and pay-fixed swaps, which are traded in OTC markets as of June 30, 2026, and the fair value of these derivatives with excess variation margin for cleared activities.

	Notional Amount	Fair Value Positive (Negative)
Interest rate caps	\$ 75,000	\$ 2
Pay-fixed swaps	2,300,000	5,429
Total	\$ 2,375,000	\$ 5,431

The following table provides the total exposure covered by guarantees for each separately disclosed credit risk portfolio and the risk-weighted asset amount associated with that exposure. The Bank did not hold eligible financial collateral for its loan, investment and derivative portfolios at June 30, 2026.

Government-Guaranteed Asset Type	90-Day Average Balance	Risk Weighting	Risk-Weighted Amount
Investments	\$ 5,065,087	0%	\$ —
Loans	1,709	0%	—
Total	<u>\$ 5,066,796</u>		<u>\$ —</u>

SECURITIZATION

The Bank currently only participates in credit-related securitizations as an investor through the purchase of highly rated asset-backed securities (ABS) as included in its investment portfolio. The Bank also holds securitization exposures through the purchase of U.S. government and agency guaranteed securities. The Bank has not transferred any exposures that it has originated or purchased from a third party in connection with a securitization of assets as of June 30, 2026, nor does it have any outstanding exposures that it intends to be securitized at June 30, 2026. The Bank did not recognize any gain or loss on securitized assets for the six months ended June 30, 2026.

Below is an overview of the Bank's purchased securitization exposures held as of June 30, 2026, by exposure type and categorized by risk-weighting band and risk-based capital approach. Refer to Note 2 of the accompanying financial statements for additional information.

Description of Securitization	Risk-Based Capital Approach	Exposure Amount	Risk Weighting
Agency MBS:			
GNMA	Standardized risk weighting	\$ 2,877,530	0%
FNMA and FHLMC	Standardized risk weighting	2,727,038	0%-20%
Total		<u>\$ 5,604,568</u>	
Asset-backed securities:			
Small Business Administration	Standardized risk weighting	\$ 134,875	0%
Asset-backed securities	Gross-up	78,278	20%-100%
Total		<u>\$ 213,153</u>	

EQUITIES

The Bank has certain exposure to equity investments. The Bank is a limited partner in certain Rural Business Investment Companies (RBICs) for various relationship and strategic reasons. These RBICs facilitate equity and debt investments in agriculture-related businesses that create growth and job opportunities in rural America. There have been no sales or liquidations of these investments during the period. The Bank has no intent to continue to invest in RBICs in the future.

As of June 30, 2026	Disclosed in Other Assets	Life-to-Date Losses Recognized in Retained Earnings*
RBICs	<u>\$ 15,791</u>	<u>\$ 14,541</u>

*Retained earnings is included in common equity tier 1 and total capital ratios.

The Bank is also involved in an unincorporated business entity (UBE), as defined by FCA regulation. The Bank held this investment to manage an unusual and complex collateral associated with a loan

workout. As of June 30, 2026, the collateral has been fully liquidated, and we anticipate the UBE will be dissolved by the end of the year.

The investments in the RBICs and UBE are not publicly traded and are accounted for under the equity method. The book value approximates fair value. The Bank had no unrealized gains or losses either carried on the Balance Sheet or recognized through earnings.

INTEREST RATE RISK

The following table sets forth the Bank's projected annual net interest income and market value of equity sensitivities for interest rate movements as prescribed by policy, based on the Bank's interest-earning assets and interest-bearing liabilities at June 30, 2026. When the 3-month Treasury bill is below 4.00 percent, the 200 downward shock scenario is replaced with a downward shock equal to half of the 3-month Treasury bill.

	+200	+100	-100	-191
Change in net interest income	3.73%	2.26%	(0.75%)	2.75%
Change in market value of equity	(10.34)	(5.46)	8.61	18.33

OUR MISSION is to serve as a
dependable provider of credit
and other financial services to
agriculture and rural
communities.
